## Pokemon rejuvenation download

Pokemon Renewal is a fan-made Pokemon game. It is inspired by the popular Pokemon Reborn. The author of Pokemon Renewal gave us something similar, but unique. You will start your journey in Aevium Region. This region suffers the pain of being divided into four by an unknown force. They need help from the outside, and what they get back is the silence. No one is willing to help them. You are a young Pokemon coach. You travel through this region to collect all 18 badges. When you hear about this power, you want to do something. And... Well, no need to say, you have to fight against an evil team called Team Xen. Maybe they're related to that power. Can you save and protect this region? Features Two different modes for playing: Normal and hard. There are help centers in this game. You will get any suitable guidance when needed. You can catch all 721 Pokemon. The overworld characters are fully adapted. The IV/EV checker. The TM's are adjusted. The Forms are adapted. The Shiny Pokemon was adapted. The Shining Rate was increased: 700/8192.
