See the full list dmv.utah.gov In addition to changes in the manual, Safety Inspection reviews its operating policies and procedures. Utah law requires the Safety Inspection Office to investigate complaints and to protect consumers from unwanted or undisplaced repairs or adjustments, 53-8-204 UCA. For Food Safety and Inspection. About FSIS ... Utah on or after January 17, 2019 and on or before August 18, 2019 is not eligible. Labelling requirements. The Utah Code (UC) regulates the state's street legal laws. UC Section 41 Dimensions All vehicles driven in Utah are limited to a maximum width of 102 inches, a maximum height of 14 feet and a single length limit of 45 feet. UC 72-7-402 Tyres All car tyres must be safe and without dents or visible wires. Utah requires a minimum tire tread depth of 1/16 inch. Tyre tracking is not covered by the code. UC 41-6A-1636 Mudflaps Rear tires must have the upper 50% of the deck covered by mud flaps, fenders or vehicle body construction. Rear mud flaps must be directly in line with the deck and at least as wide as the deck. Wheeled spacer wheels are prohibited in Utah. UC 41-6A-1636 Brakes Utah requires vehicles to have brakes capable of stopping the vehicle from a speed of 20 mph within 40 feet. A secondary, mechanical, parking brake is also required. UC 41-6A-1630 Control Management Systems are not covered by utah code. UC 41-6A-1623 Suspension It is illegal to install elevator blocks on the front suspension of a vehicle being driven in Utah. Any suspension lifting blocks mounted on the rear end of the vehicle shall be made of one piece. UC 41-6A-1630 Frame & Undercarriage Height See additional detailed information in the PLT Safety Inspection Manual Utah has a vehicle frame height limit law based on vehicle GVWR. In addition, the lower part of the vehicle floor can not be more than 3 inches above the top of the frame. Vehicle GVWR Under 4,500 4,500 to 7,499 7,500 and above Max. Frame Height 24 inches 26 inches 28 inches (Measured to the bottom of the frame.) UC 41-6A-1631 Bumpers are required in Utah. All bumpers must be at least 4.5 inches tall. UC 41-6A-162 Fenders If a vehicle's gauge has been modified, Utah requires that screens and mud flaps be expanded to cover cover cover cover cover cover the tire tire full width. UC 41-6A-1631 UC 41-6A-1633 Lights It's not clear whether Utah's street law allows auxiliary lights to be installed in addition to headlights and taillights. Headlamps Tail lamps Spot light Number 2 min. 2 2 2 max. Min. Height 15 inches 15 inches n/a Max. Height n / a n / a / a (Measured to the center of the light.) UC 41-6A-1604 UC 41-6A-1610 Bright colors Must be customized lighting colors provided in the chat in the PLT Safety Inspection Manual Windows Laws in Utah do not indicate whether windshields are required. However, vehicles with windscreens shall be equipped with wipers. UC 41-6A-1635 Tint See additional detailed information in the PLT Safety Inspection Manual Toning, or opaque material added to the window (s) to the immediate left or right of the driver's seat is illegal if it allows less than 43% light transmission. (Front left/right windows). The right side mirror cannot be missing when a window is tinted. The window tone of windows behind the driver can be as dark as desired. Exhaust in Utah, silencers are required equipment. Exhaust cuts are prohibited. UC 41-6A-1626 Engine It's unclear whether Utah has any engine swap or engine performance change rules. Emissions Only Davis, Salt Lake, and Weber counties currently require emissions testing in Utah. Requirements for vehicle registration Any OHV (ATV, UTV, motorcycle or snowmobile) must be to be labeled with ohv.. Most non-resident OHV operators are required to purchase a non-resident OHV Permit for each ATV, UTV, OHM and snowmobile they bring into the state. These permissions are available from vendors located near popular OHV destinations and online. A complete list of vendors is available from the Utah State Parks and Recreation office. Learn more about OHV registration in Utah Street Legal OHV Requirements Both Type I and Type II ATVs can be motified to become street legal and operate on designated public highways. For more information on the requirements, visit the Utah Highway Patrol website. Learn the requirements - OHV-Street-Legal-Code-5.8.18.pdf Nonresident Street legal requirements A non-resident operator who is licensed on highways in another state can act as a street legal ATV in Utah, only if that state reciprocates a Utah street legal ATV on the other state's highways. The non-resident operator, who is reciprocal to Utah, will need to have Utah's necessary equipment before it can be operated as a street legal ATV. Heavy Trucks This training will prepare you to recertify as inspector for Heavy Trucks, Trailers and Buses in the State of Utah. It includes a review of the Utah Highway Patrol Safety Inspection Manual and contains useful images and notes. The training also includes the tests to be carried out in order to qualify to re-identify as an inspector. With your purchase you will receive training and UHP recertification application. Each inspector is required to have a copy of the 2016-2017 inspection manual, which is available on the Utah Highway Patrol website, click here to link to it. Course take several hours to complete. At the end of the course there is one last test that must be performed with 80 percent accuracy to qualify as an inspector. Please see the requirements link on the left to become familiar with paperwork required to recertify as inspector. Inspector.
