The first day back-to-school often looks very different for arizona students who see friends with many students and do it with online connection with teachers via video conferencing. Earlier this summer, many schools asked parents to choose whether their students should attend classes in person when COVID-19 cases decline, or whether they want their students to attend school online all year long. Most students start with online classes, a data set the Arizona Department of Health Services will provide by August 7 until school districts determine when they can safely bring students and school staff to campus. Leticia Padilla's three children will attend full-time online school in the Dysart Unified School District this year because two of them have asthma. Even for my daughter who doesn't have asthma, if she gets it, I send her to school, we bring her home, so we're all exposed. It was a major concern, Padilla told Fox 10 News. On the other side, we were worried about what they were miss. They miss social interaction with other children, they just miss school functions, classes they miss because some classes are not given. For dysart Unified School District high school students, remote learning will begin with video conferencing on one side and a split screen with course material on the other, said Michelle Feist, a 9th grade English teacher at Shadow Ridge High School. As they prepared for the start of school tomorrow, several teachers volunteered to share some information about Distance Learning and what it might look like for students. This video by teacher Michelle Feist @ShadowRidgeHS offers an overview of what a student can go through. pic.twitter.com/K4jnOMqWi3- Dysart School District (@DysartUSD) August 3, 2020 Students will be working on courses adapting to online learning or schoology will be working on virtual course material in Florida for this course, Feist said. Feist said a student would go to a subject unit with weeks and dates to find part of the unit they were working on. Feist said students can work as the teacher speaks in a section of an interactive workbook online or be sent to work for 20 minutes on their own. Feist, every week the parent will be able to see an agenda for that week and what will happen. Said. Feist said each student's daily routine will be different from subject to subject, teacher to teacher, and grade level to grade level. Learning looks different for students in elementary, secondary and high schools. Brynn Porter, who goes to the Queen Creek Unified School District with her children, said she created a spreadsheet for each of her children because their learning schedules are different every day. Valley richard prange (@Rich_NEWS_Dude) began teaching online students in late July at Higley United schools on August 5, 2020 - with 5 students starting virtual education through #12News #queenecreek. In his welcome video, Principal Shawn Varner said that although we almost start virtually, we are committed to your student's education at Cooley Middle School. Varner, Students can't wait to see your faces on our computer screens, and we can't wait to finally see you in person on the Cooley campus. Said. FUSD family... You asked, and we answered. Click the link to watch a video by Dr. Kelly Smith, Director of Curriculum, Teaching and Evaluation at K-8. #FactFridays Florence Unified (@Florenceusd) video chats with friends she hasn't seen in months as she moves between classes, instead of calling out to her friends as she walked down the aisle on July 31, 2020. What would it be like if the online learning program was on campus? He said knowing when and what to work on made it easier to stay in a better place than at the end of the last quarter. These first two days seemed like a major technical glitch, but he and his classmates always said teachers were ready to fix the problem if necessary. While she missed hanging out with friends at lunch and before school, she said she understood they were learning online to stay healthy. A Peoria teacher sent science kits to all his students to help middle school science students. I'm sending science kits home next week for my sixth grade kids. Now we can do science at home. #stem pic.twitter.com/nqXmCgHfbh- jennifer cheesman (@azspacecampgirl) July 30, 2020 Some elementary students may face the challenges of navigating new online learning systems, but many school districts factored in extra time this week for teachers to help young students adapt to their new school routine. Apache Junction Unified School District freshman teacher Amy Hopkins told Fox 10 News Phoenix that children are very resilient and have in-there motivation to learn. Said. Look at a few of our super sidewinders, all ready for the first day of school! #sirinempasaz @mpsaz pic.twitter.com/1FYt04qHRI- @SirrimeMPSAZ (@sirinempasaz) August 5, 2020 Elementary teachers created daily and weekly agendas to make it easier for students to navigate online, said Dr. Kelly Smith, director of the K-8 curriculum for the United School District of Florence. Dr Smith said online learning is different from in-class learning, and it's important for teachers to find out if your child is overwhelmed or if your child should be a little more challenged. In addition, parents are told that students with disabilities receive special education teachers and online service. FUSD family... You asked, and we answered. Click the link to watch a video by Dr. Kelly Smith, Director of Curriculum, Teaching and Evaluation at K-8. #FactFridays Florence Unified (@Florenceusd) July 31, 2020 Students with disabilities who have no access to online learning will have service appointments following U.S. Centers for Disease Control guidelines with special education teachers in the Chandler Unified School District, said Terry Locke, district spokesman for the Arizona Republic. While many schools have already started, some will start learning online this week. In the Deer Valley Unified School District, students and parents get their school supplies and curriculum today and tomorrow. @MirageDVUSD supply and curriculum: 8/5 from 3-6 pm and 8/6 from 8 a.m. to 12 p.m. #collegebound @DVUSD @mirageptsa pic.twitter.com/6nsGou6UT- Jamie Wilber (@jwilber1) August 5, 2020 If you are looking for a Dysart skoology entry, check out our links below: 1.
