Could this be a temporary probe? if so, where is it located and how do I get to replace it? Thank you. RE: STERIS - QDJ044 AnswersAdded instructions on how to replace the heat fuse on the double compartment QDJ04 warmer. RE: STERIS - QDJ045 AnswersI have a desktop 6th gene. warming wardrobe does not heat up to the end. It warms to about Degrees. We've already replaced the dashboard and the temporary probe. Is that a relay? Thanks RE: STERIS - QDJ040 Answers Does anyone have a PDF copy of the Service Manual for Steris M70WC-EL DJ04 Blanket Blanket Double Compartment? Please email me joe@healthprosrurgical.com if you need any manuals as well. Thanks RE: STERIS - QDJ044 AnswersI have a Steris Amsco dual chamber blanket warmer model QDJ04. My problem is that the temp dial is set to 100 degrees, the digital reading is 110, and the temp inside the closet is 93. I have already changed the temp probe, as well as the PCB for the upper chamber (the upper chamber is where I have problems). I'm not sure what else could be wrong, I'd be adversity to any suggestions. Thanks for your time, RE: STERIS - QDJ04 AMSCO double compartment heating cabinet is designed to address the warming needs of high-volume patients. This model of the blanket heating cabinet provides a capacity of up to 15.8 cu. Ft. and offers the versatility of two independently controlled heating compartments.
