January 20, 2021 Version 1.3.1 Make your own Nommie! Customize your own exclusive Om Nom by choosing from dozens of colors, clothes and accessories in this new update! This game is amazing! I love the new update with multiplayer and stuff! The only problem I have with this game is that there are only three levels for multiplayer and I just want to play a single race to be the last standing!! 🏆 yes, but this rest of the game is amazing and I like the list of characters and the new characters like tech kid 📺! But another problem I have is the ads. You need to subscribe to your vip pass to not receive ads. WHO WANTS TO DO THAT? 🍷🍷🍷🍷🍷 If it was a one-time fee it would be good, but not a 🍷! But other than that, the game is amazing! Great game, keep making amazing games like this!! 📺 📺📺📺📺📺Edit: Dude, it's great that the Om nom with the glove on his head is back he's amazing and also about the ads I'm not crazy anymore. I bought a weird \$3 package with these three characters and didn't give me ads so yes I already all the characters including those three you have to buy and the cover cover I hope you ad more characters soon like blue or something, but if I could rate this game 20 stars I would be amazing 🍷🍷 ***** Om Nom Run is basically your average non-stop running game, but it bears some resemblance to Minions Run. The mission may be kind of short, but overall it's a fun game whether you're a non-stop racing fan or a rope cut fan as well. My only problem, but it doesn't really change it I think it is that when you die you have only two options. Watch an ad or just give up. If you choose ad and watch the whole thing, then you will get up and keep running. Now, unlike other Non-Stop Racing games, when you get hit again, you can watch another ad again and you won't stop running, which makes your high score go even higher, which makes the difficulty level good down very fast. Also, Om Nom: Running is a lot of fun and I think you'll like it. This is by far my favorite game without stopping running. The different characters are cool, and the graphics are great too. My biggest problem is that I went through the levels very fast. There are only 120 levels and I (playing around an hour a day) finished the entire game in two days. Now I'm sitting here with every character, all their leveling skills, and no levels to play. It was very easy to get all the coins to get each character. I'd like to see an update with more levels, more worlds, more scenarios and more characters. The levels are very easy. I understand that the game is more geared towards young children, but even if I were eight years younger I feel like I would still breeze through this game and levels. Overall, my favorite game without running. I just wanted it to be less easy and there were more levels.
