Gartner magic quadrant mdm 2015 intrusion prevention system

According to Gartner, the market for network intrusion prevention systems has evolved dynamically, increasingly absorbed by next-generation firewall placements. Next-generation IPS are available for best protection, but the IPS market is under pressure from adopting advanced threat defense solutions. This Magic Quadrant focuses on the market for standalone IDPS (IDP/IPS) appliances; however, IDPS features are also provided as features in other network security products. Network IDPS are provided within a next-generation firewall (NGFW), which is the evolution of enterprise-class network firewalls, and include application awareness and policy control, as well as network IDPS integration (IDP/IPS) 2018 Gartner named McAfee (StoneSoft), Cisco (SourceFire), Trend Micro as Magic Quadrant Leader in 2018 for Intrusion Detection and Prevention Systems (IDPS). (In 2013, McAfee acquired Stonesoft and Cisco acquired Sourcefire. In 2015, Trend Micro acquired HP TippingPoint for \$300 million.) Gartner 2017 Cisco and Intel's Magic Quadrant for Intrusion Detection and Prevention Systems (IDPS) 2017 are still in the leading quadrant, while Trend Micro is a leader now. IBM becomes Challengers. 2015 For the third year in a row, Intel Security's industry-leading network security platform (NSP) has been recognized as a leader in the Gartner Magic Quadrant for Intrusion Prevention System (IPS). IBM Security returns to the Leader quadrant in the latest Gartner Magic Quadrant for Intrusion Prevention Systems (IPS), released on November 16, 2015. 2013 Cisco acquired Sourcefire Inc. McAfee, the security specialist owned by Intel, purchased Stonesoft, a Finnish specialist in firewall protection products, for \$389 million in cash in May 2013. 2012 2010 2009 2008 According to Gartner, the IPS market must respond to the pressures arising from the adoption of advanced threat defense solutions and the obligation to provide cloud placements. This report ranks each vendor based on their vision and execution capabilities, placing Intel Security and Cisco in the leaders' quadrant.
