Cryptic quiz answer key page 180

Once you've been to a few nights quiz, some of the same questions arise: here's a cheat sheet. Put them in memory. If you print this out and take it with you, you're mean. Don't blame us if you get caught. This question format is known as the linguistic equation or istloid, and you can learn more about them here. NEW: If you want to study them before your big night, use the excellent Flashcard/Quizlet app - This list is also available as a 'set' quizlet card. NEWER: You could also try the unfathomable 'Droid ditloid' which claims to have many more solutions available, if you can figure out how to question it.
