media property to Amazon (NASDAQ:AMZN) CEO Jeff Bezos in 2013. Although that deal took away some of the company's cache, what it left behind could be described as a treasure trove of values. What am I talking about? Namely, its leading Kaparana virus influenced the results of this company. But with equities still down sharply from their property of the property of this company. And that's not all, with other assets in broadcast	•
corona virus influenced the results of this segment. But with equities still down sharply from their pre-pandemic prices, Wall Street can gauge how quickly this high-margin business can bounce back. And that's not all — with other assets in broadcast For one Seeking Alpha columnist, the collapse value of GHC shares could be \$700 per share. The stock currently trades at about \$450 per share today. It's a bit off the beaten path. But to get great value for the opportunity, sketch out Graham Holdi	
personal computers and printers are not exactly a high-growth area when it comes to the technology industry. However, HPQ's stock this year has benefited from pandemic tailwinds. Why? It turns out that the stayed economy has increased the dem	•
underperforming with Wall Street, there could be room for even more benefits with HP. Even after its impressive start recently, shares are still a cheap 8.9 times forward profit. Granted, investors are justified in discounting this year's strong results –	
orojects, the double-digit sales growth seen in notebooks this year should drop to 3.2% in 2021. They won't be as big as some of the other value stocks listed here, but computer sales are going steady as the pandemic continues. This means that th Source: Jonathan Weiss/Shutterstock.com The massive accumulation of hysteria that occurred in the early days of Covid-19 seems a million years ago now. But, there are still reasons to be excited about shares in food giant Kroger other than buy-u	
the better value stocks out there? Of course, without the need to accumulate again this upcoming March, analysts expect earnings to fall for fiscal 2022 (the year ending Jan. But, with stock trading at 11.59 times the fiscal year 2022 earnings, it remains to fall for fiscal 2022.	
stocks. In addition, Kroger shares also offer a stable dividend yield of 2.31%. In addition, the company's average dividend growth per share has been 12% over the last five years. With a payout ratio of a super low of 17.6%, there's room for the food	
based profits. Also, as InvestorPlace contributor Will Ashworth pointed out on December 1st, Warren Buffett continues to devour up KR's stock. Last quarter, Berkshire Hathaway increased its position to 25 million shares. Now don't expect Kroger to	
return, consider inserting this food purveyor into your shopping cart. 3M (MMM) Source: Ken Wolter/Shutterstock.com Industrial Conglomerate 3M has largely recovered from the pandemic decline. However, there's still a good reason why this comp consider in your portfolio. This year, I called MMM stock a safe port, market uncertainty continues. Markets have recovered, but with growth stocks trading with unsustainable valuations, why not consider this reasonably priced name? Yes, an indust	, , , , ,
But, trading at 18.12 times forward earnings, it's much cheaper than other industrial conglomerates such as Honeywell (NYSE: HON), which currently trades at 26.81 times forward profits. As I've previously discussed, 3M was having some issues be	
yes, earnings took a short hit during the worst days closed back in late spring and early summer. But – with earnings per share expected to climb to \$9.47 by 2021 after years of being stuck between \$7 and \$8 – investors may start giving this name a	a much higher valuation. 7 Cheap Stocks to Buy Before
The Market Understands Being Worth With This In Mind, an increase of up to \$200 per share doesn't look out of the question. Right now, the stock trades \$173. So, for a stable and growing dividend yield of 3.39%, a reasonable estimate and a runw	· · · · · · · · · · · · · · · · · · ·
Altria Group (MO) Source: Kristi Blokhin/Shutterstock.com this tobacco giant can be best known as a sin stock. But, you should consider Altria as one of the value stocks, too. With its low estimate (futures price profit of 9.0) and high dividends, this part of the cheapest large grave stocks out there. Of course, the Z generation tobacco use trends don't bode well for a house Marlboro built. But, there may be potential for low volatility growth for those who dive at today's prices. What am I thinking? For or	
mo stocks are income investors dealing with today's nearly zero interest rate environment. True – with its payout approaching 80% – the air becomes thin when it comes to increasing these in the coming years. However, with profits set to continue of	
chance to grow this cost in the coming years. And, as InvestorsPlace contributor Joel Baglole discussed November 20, the company's moves to non-combustible tobacco products—along with his investment in cannabis company Cronos (NASDAC	Q: CRON) — mean that it is making an effort to avoid
ong-term non-compliance. Given that it is a controversial industry, MO stocks are not all cups of tea. But, for the reliable value of the stock, consider this name a solid buy. PPL Corporation (PPL) Source: Shutterstock PPL stocks are another name I	,
many times this year. As I put it back in August, consider this utility company as a name you can buy peace of mind. Why do I feel this way? Trading at 11.92 times the forward price-to-profit ratio, the PPL price is lower compared to its major compet this a forgotten utility stock of fantastic value play. And – while its KU unit is an area of concern – the company is in the process of selling this load capacity. After the sale, the PPL can refocus its focus on its more stable units in Kentucky and Penns	•
crash, shares have held steady between \$25 and \$29 per share. But, with stocks still below pre-flare levels above \$35 per share, there's room for solid gains in 2021. Snap-On (SNA) Source: RMC42/ShutterStock.com Like DaVita, Snap-On is another share.	,
returns for investors. This high-end toolmaker may have hit a snag when a pandemic first affected the U.S. economy. But, now in recovery mode and knocking it out of the park's quarterly earnings, the shares have more than bounced back on their park is a share to be a	
ows, I believe there's more left in the tank with SNA stock. Yes, profit growth can be slow and stable with a low double digit. But, with a future price-to-profit ratio of 16.34, shares are cheap compared to similar names like Stan	
Add to its growing dividend yield now at 2.72%, and there's more reason it overlooks the average grave stocks are stealing today's prices. Of course, this choice of value stocks may not rally significantly higher come 2021. But if you are looking for a the better companies to buy. AT& amp; amp; amp; amp; amp; amp; amp;	• • • • • •
trading between \$25 and \$30 per share since March. To some extent, this is not surprising. As InvestorsPlace contributor Bret Kenwell discussed December 7, a factor that is likely making many traders bearish about T stocks is its high debt position	
acquisition of TimeWarner and DirecTV. Given its very leverage balance, it's no surprise many are expecting another shoe to drop. This means that the company could make a big move, such as reducing its dividend. However, given its lukewarm per	performance, you can argue Wall Street is already pricing
a lot of that risk into equities. 7 Cheap Stocks Ready big gains 2021 for today's prices, further downside is minimal compared to earnings - if the company exceeds investors' current low expectations. If its gamble with HBOMax pays off, dividends re	
aggressive action to reduce outstanding debt, expects this stock to head back to the previous price level of \$35 per share and more.
