Beaphar Gentle Leader® provides friendly and effective leadership, making training at home quick, easy and fun for both you and your dog. PetSafe is the leading manufacturer of the animal product with almost 30 years of experience. The company works with the best veterinarians and behavioralists to create the best products that help pet owners and their puppies live happily together. This gentle leader and tape set is one of them. It can make even the most stressful trips into a joyful pastime with your four-legged friend. It effectively prevents pulling, lunging and jumping while still allowing puppies to bark, eat, drink and play. In fact, this thing reduces the pet's desire to pull by placing gentle, even pressure on the head instead of painful points on the neck. And to prevent suffocation and chafing, this head cohesion is made with a padded neoprene loop that sits on the back of the neck instead of the delicate neck. At the same time, the nose loop allows you to turn the puppy's head in the direction you need to go. The nose loop and fast neck strap are both adjustable, so you can quickly and precisely adapt the PetSafe headfinder to your fur friend. On average, it can take you about 5 minutes to set up this gentle leader and go out to try it out. While most other gentle leaders do the same, there is one thing that makes this model stand out from the crowd. It has a super-stylish design and is available in three cute prints and patterns. So, if you are looking for an attractive funny style headskoll that make your pet more friendly and accomodating, you can't go wrong with the PetSafe Chic Gentle Leader. As an added bonus, it comes with a matching ribbon. If you own the cutest dog that unfortunately behaves horribly on a leash, PetSafe No-Pull Dog Collar can become a real lifesaver for you. This is a complete set developed by professional trainers that can correct and improve dog behavior within the shortest possible time. The thing is, the collar comes with useful instructions and a very useful step-by-step training guide that will help you and your furry friend have a positive experience with this headfinder. Even better, the package also includes a DVD that can help your dog accept the collar and make sure you place the product correctly on it. Alternatively, contact the customer service team to ask friendly PetSafe managers to help you adjust the collar or choose the right size for your pet. Nevertheless, if you still happen to be wearing the wrong size, the Customer Service Center will be happy to help you with a replacement or resize. All this makes PetSafe Gentle Leader Headcollar a lot even for those who have zero experience with dog training and have never tried similar products before. In the shortest time it will help you drastically improve the behavior of your pets. They won't drag you around anymore and will walk at a nice, reasonable pace, so you can enjoy more time outdoors. Due to the adjustable nose loop and the fast neck strap, it makes it easy and easy to install. Finally, it is worth mentioning that this dog leader is available in L size and basically fits all dogs from 60 lbs to 130 lbs with neck/nose circumference from 11 to 24.
