Translated: There are coffee machines that came on the market many years ago, and they still operate (even for sale) in homes around the world. Let's be clear: most of us don't keep manual Nespresso coffee machines or plastic and paper warranties that go into the box when we buy a machine. We usually throw them away as soon as we check that they are working correctly, or it is best that we keep them in a drawer for a few months and then throw them away when we remember that we have them there. What happens then? When we need to get our hands on them, we don't have them. There is a much higher probability that the machine will have problems and that you should check the instruction manual for your Nespresso coffee machine in the long run (after a few years of use), than in the first few months of having it. And who knows where the manual is then! Do not forget that the user manual of the Nespresso coffee machine is independent of the manufacturer (which is usually Krups, or Delonghi). In other words, you should search the user manual by model. The user manual for Krups Essenza Nespresso is the same as that for Delonghi Essenza Nespresso, to give an example. We point out this because many users confuse what models are concerned about what the machine manufacturer is concerned about. So, let's get in business. Here's the full list of user guides for Nespresso coffee machines. Download the user manual for the Nespresso coffee machine (in PDF)Thanks to the persistence of this Nescafé group brand, you can download the technical manual for the Nespresso coffee machine you need. This includes everything from the oldest to the latest. If you are looking for a user guide for Nespresso Citiz (one of the best-selling and most popular), you can find it here; and if you need it for Maestia (little known), it is also here. If you need a manual for a particular Nespresso coffee machine, and for whatever reason you can not find it in this list, please feel free to let us know. You can do this below, in the comments section. I am sure that if you are looking for a PDF user manual of a particular Nespresso coffee machine, it is because you have that model at home. But for whatever reason you are still thinking of buying it, here is the latest list of the best-selling models currently in No, I don't. 10 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25 26 27 28 29 30 31 3 32 33 34 35 36 37 38 39 40 41 42 43 44 45 46 47 48 49 50 51 52 53 54 55 56 57 58 59 60 60
