Please fix this glitch: When I play the game randomly crashes. I have the newest version and use an iPad Pro. Also there is not much to do in the school map, at least nothing very exciting. In Goatville, you can blow up a train, play with a rag doll, obliterate Coffee Stains Studios, or jet pack of a crane. In the city (I forgot its name) you can fly on a fireworks display, get yourself thrown off a roller coaster, beat up ninja turtles in the sewers (lol) or blow up a hotel cafe. What can you do in the school map? Well, catch book thieves, draw graffiti on the walls, and make a statue of your goat (TNT involved). Hmm... miss the madness of the other maps. So maybe add some more exciting things to school. Also I have an idea for a map, an airport. You can blow up a plane (huge explosion, wipe out most of the things near it) pull bizarre things out of suitcases (like a T-Rex) and more. Also a goat idea would be the caffeine goat that you get by drinking coffee. When you press POW, the goat goes crazy. Maybe a Slither Goat, who's like a snake. Also, please make glass breakable. I think that would add a lot more fun to the game. Maybe you can add a friend system, so as if someone has a friend who plays Goat Sim, you can send them a friend request and if the other player accepts, you can play together. Well that's all.
