After printing more than 2 million copies of prints in the Promised Land, Manchaild is one of the most remarkable autobiographies of our time, a definitive record of African-American youth in Harlem in the 1940s and 1950s and a seminal work of contemporary literature. Published in a literary era marked by the ascension of black writers such as Richard Wright, Ralph Ellison, James Baldwin, and Alex Haley, this thin fictional story, dating back to Claude Brown's childhood as a hard, street criminal trying to survive on Harlem's toughest streets, was heralded as a definitive account of the daily lives of the first generation of African Americans who grew up in the northern 190s. When the book was first published in 1965, it was lauded for its realistic depictions of Harlem, children, young people, and hardworking parents. hustlers, drug dealers, prostitutes, number runners; police; Violence, sex, humor. The book continues to resonate for generations not only because the struggles of urban youth are felt as deeply today as in the time of the Brown era, but also because of the fierce and dignified anger caused by the moving message. Now, with the introduction of Nathan McCall, here is a story about the man who made it, a boy who kept landing on his feet and grew up to be a man. iJAKay63092hbytanJnmglh248 - Read and read and download Sannica Shakur's book Monster: An Autobiography of an L.A. Gang Member Sannica ShakurSynopsis: After pumping eight explosions from sawn shotguns from a group of rival gang members, was launched on 12-year-old Cody Scott L.A. Gang Cripps. He quickly matured into one of the most powerful creep combat soldiers, getting the name Monster for committing brutality and violence that repelled even his fellow gang members. When the inevitable prison term limited him to a maximum security cell, full political and personal changes followed, from monsters to Sanika Shakur, black nationalists, members of the new African independence movement, to crusades against the cause of gangsterism. In a document compared to Malcolm X and Eldridge Cleaver's soul's autobiography on ice, Shakur touches the despair and decay of America's inner city and gives an eloquent voice to one aspect of today's black-in-the-air urban experience. £12.16 £12.16 £32.51 £20.69 £20.69 £20.69 (£10.35/item) Visit the Help section or download Monster To Contact Us: Autobiography of L.A.
