Meet sweet new characters back at Top Candy Crush has never been an old game because it's always been revamped by the king and adds a lot of mechanisms to make players feel attractive. One more obvious thing is that the publisher has released a lot of small branches of Candy Crush, making it more diverse in the eyes of the players, as well as making more installments and revenues for them. Candy Crush Soda Saga is one of the first branched versions to be released and is still one of the most popular games. Although this is a match-3 puzzle he has much more wonderful transformations than his brothers. The first is that it gives you a story, a real adventure, and the game is simply a tool to enjoy the panorama of the story. Each land that goes through carefully designed different and attractive themes. In addition to these themes, the effects you can use in the game as well as the boosters are made from the same theme. Latest updates the latest version that King recently updated for us to listen on Google Play, players continue to get fizzy new episodes! Here, players step in the difficult path of hardship, but it is full of fun, for you to reduce the number of new screens you need to go through the longest and most sick stages that the player can do. But the feeling of waiting to receive the new filters I love is really exciting. They are accompanied by new stories, of course, new levels. The challenges it offers will be extremely difficult, which only skilled players can solve. However, please be sure because they have also updated sweet new characters! These characters are a great help in overcoming the heavens you just added. Gameplay for those who do not know, it is just a match-3 puzzle. This means that the actions you need to take to simply Swap and match the bottle icons together (the theme of the game Soda, so the icons they use in the game will be soft drink bottles already). You will be surprised by the variety of designed bottles in many colors. The primary colors appear at the beginning of the game and do not have any special features. Later, there will be more and more different colored bottles and that strange experiences that you can never see in games of the same genre. More than 1000 Sodalicious levels of Candy Crush Soda Saga require players to change the seat of an icon that can be combined in a row with at least three identical icons. At that time you will disappear and the player points. However, the special thing is that if you hate at least 4 icons, you will get your booster and it will place better where the icons you just moved. Besides, a game screen will have different versions depending on the terrain and the requirements that the script offers. You are now ready to download Candy Crush Soda Saga for free.
