## Luisa piccarreta livres pdf

On Thursday 26 March 2015 the Lord told Martine (1): God sprinkled the earth with REAL PARATONNERRES the cost of it. God protects HIS NATURE by his children given to God Mercy to be a lightning route and protect the earth. Among these lightning rods, among these restorative souls, we should call the stigmatization of Blain, Marie-Julie Jahenny or Maria Valtorta and of course Luisa Piccarreta. Luisa was born on Sunday shortly after Easter in the village of Corato, Italy, on 23 April 1865. She was baptized the same day. She lived there all her life, except for the months when she was young every year, her family lived on the farm. Luisa died on 4 March 1947 in the smell of holiness; to an extraordinary life. At the age of 9, she made her first community and received the sacrament of confirmation on the same day. The Eucharis became his overriding passion; she concentrated all her loves there. At the age of 12, she began to hear the voice of Jesus inwardly, especially when she had fellowship. Jesus became his pupil about the things of God, corrected her and taught her how to meditate. At the age of 13, as she looked in the street, she saw in the middle a large crowd leading the Lovely Jesus with his cross on his shoulder and pulling him on one side and the other. Jesus had a bloodied face and struggled to breathe. He felt sorry for softening the stones. When he looked at her, Jesus said to her, Soul, help me! ... From that moment on, she was deeply inclined to suffer out of love for Jesus. At the age of 17, Luisa began not to eat. Until her death, about 65 years later, she lived without food and water. His food consisted of Divine Will and Holy Communion. In early 1994, the Vatican asked to start the process for its addiction. His case was introduced on the feast day of Christ the King on 20 November 1994. This first volume gives us his writings from 1899 consisting of the preparation of Luisa for his mission.
