Mutants and masterminds character sheet 2nd edition

I am always disappointed by trying to keep track of the handwritten character sheet: writing, deleting, rewriting, and repeating if necessary. I tried using sheets made into Acrobat shape, but I was just disappointed not having enough note space, couldn't load enough text into a small space, and couldn't format text in a larger field so it would be easier to read or scan important bits of information. (Yes, I'm too detail oriented, AKA money retention. I'm sure I explained that on the homepage.) So, here's my solution ... Tadaa! Ms Word's terrifying character sheet. MnM2e CharSheet v1.1 If you don't like something about it, change it. I tried to keep it as simple as possible, but character sheets are a complicated thing. I had to use some advanced formatting. Some notes about working with sheets ... The Power/Sheet Devices section requires little Word knowledge working with the table. I include examples of primary power as well alternative powers, but you may need to do your own copy/patch of row if necessary to put alternative powers under their appropriate primary power. It is the easiest to work on a sheet seeing it in Normal mode (See menu > Normal). Beware of accidental deletion of sections or columns. You may want to use Show Marks so you can see breaks. Feel free to send me feedback, requests for updates, or your own updates to the sheet.
