Minix neo x 8 h

Many customers ponder buying counterfeit products, fake products of poor quality Minix ...??? There have been some minix-like products originating in China, but poor quality and lower-priced virtual parameters are not significantly genuine, but do not meet the quality requirements and features that original goods must have as follows:1. Original products must be an original plastic warranty card with a MINIX logo, just like a withdrawn ATM card. (Cheap Chinese goods are not).2. Genuine products are covered by a 12-month hardware warranty, one new 1 100% change within 12 months, and a free lifetime software warranty. (Cheap Chinese goods don't).) No person buys the correct product in the name above without a warranty card. When brought to the warranty company Minix is not responsible. Link to check out Minix Hong Kong's authorized agent in Vietnam: or �� Questions Please contact hotline: 0862.788.788 Thanks for your interest! After the sleek success of a series of upgrades to Minix Neo X5 smart TVs, the X7, Minix Vietnam continues to launch an impressive shot with the launch of a new Super Neo X8-H product using Amlogic S802-H's premium quad-core card 2.0Ghz product, eight-core graphics, 4K Movie Playback.Modern features and technologies Integrated Neo X8-H HIGH-END professional audio-audio system 4K All users of Minix NEO X8 -H will be pleased with the ability to play 4K2K UHD video smoothly from any source, 3D decoding, ISO Bluray audio DD/DD+/DT including a proprietary image processor from Minix that improves color texture And the textures for clear images and impressive depth and natural colors., High-class entertainment for each family enjoy crisp, brilliant HD movies with excellent entertainment technology for the family power unsymmmmmmmlogous from AMLOGIC's 2.0Ghz PREMIUM 4-CORE processor 4 core 2.0 GHz 4 cores from Amlogic S802-H Neo X8-H handles every complex 3-d-mitome task excellently. Together with 2GB of broadband RAM, 16GB of ROM memory, this is all the best performance in the world and processing speed in the medium range smart TV box segment. Let neo X8-H's non-serpentine power blow up the fire Technology inside you. CORE GRAPHICS EIGHT MALI 450 PREMIUM This is really a very remarkable improvement of minix, NEO X8 - H offers dual performance compared to its predecessor Mali- 400. The NEO X8-H delivers superior image quality and superior eight-character graphics to maximize processing efficiency. All the best 3D graphics games in the world today are perfectly presented with the most realistic experience on NEO X8-H when all 8 graphic characters work together combined with ClearMotion technology, you will feel like immersed in a world of games full of fun and challenges. Modern EMMC Storage Technology – SUPER FastIn How the previous MINIX series used NAND Flash memory. Neo X8-H uses super-fast eMMC memory that can satisfy a variety of needs, such as web browsing, multitasking, HD 3D movie gameplay, virtual reality interaction, and high-quality visual games. The X8H anchor promises to deliver the fastest data retrieval speed on the market for an embedded memory device. The ability to catch high-level 2.4 GHZ WIFI waves and 5.8 GHZ WIFI BAND is not only favored by Minix with a perfect design, neo X8-H is also equipped with Wifi antennas connected to two 2.4 GHz WLAN bands and 5.8 GHz provide excellent capability to connect to wide campus WiFi. In addition to this, you can easily catch waves at very long connection distances that other TV box devices cannot do, with the ability to catch good WiFi waves remotely, Neo X8-H can work seamlessly with most demanding bandwidth applications such as VoIP, HD streaming, or play online games without lag. Neo X8-H caught 2 bands Wifi 2.4 GHZ and 5.8 GHZ Wifi perception capability of minix Neo X8-H is excellent - currently no better product compare with the latest Neo X8-HH Android™ 4.4 KitKatNeo X8-H running on Android™ 4.4 Google KitKat platform provides powerful features and best performance with seam interface.
