This authoritative, best-selling text presents the latest skills and techniques for dealing with real crisis situations. The authors' six-step model clearly illustrates and illuminates the process of dealing with people in crisis: Define the problem, ensure customer safety, provide support, explore alternatives, make plans, and achieve engagement. Using this model, the authors then build specific strategies for dealing with a myriad of different crisis situations, accompanied in many cases with the dialogue that a practitioner can use when working with the individual in crisis. I learned so much! I was sad that my course did not cover the chapter on school crises and crises in institutions. I read all the other chapters. I'll probably read those two soon though. Reading this book has helped me clarify wanting to work in disaster counseling. I would like to help in situations such as those described in Chapter 17 on disasters. The examples or case studies offered are very realistic. I read this book for a crisis intervention course, and I was expecting the examples similar to others I've read in textbooks. I was surprised at how realistic the situation was. They were heartbreaking, they gave me a good idea of how I would handle a similar situation. The basic principles and models of crisis intervention were presented. edition of this book and you can tell everything that has been added. The authors of this book helped create the Memphis CIT program. I learned so much about different ways in which a crisis worker can be used. I learned about the CERT program, and found a local course so I can be certified CERT to help in disasters in my area. If you are interested in crisis intervention, or want to work in a similar area, you will learn a lot in this book. The authors know what they are talking about, it is well written, and provide concrete and concrete examples of people in genuine crisis.
