[6] This is followed by their multi platinum selling All the Right Causes (2005). The production was co-produced by robert John Mutt Lange, known for working with actors such as Foreigner, AC/DC, Bryan Adams, Def Leppard and Shania Twain. Dark Horse sold 326,000 in its first week and debuted at 2nd place in the United States. More than a year after its release, the album did not leave the Top 100 on the Billboard 200. In week 91, the album reached number 46 for the week of August 28, 2010. [7] From October 9, the album remained at number 71 for 97 consecutive weeks[8] and spent 125 consecutive weeks on the Billboard 200. [9] In the week of November 29, 2014, Dark Horse re-entered the Billboard 200 at number 195, more than six years after the album's release. It reached number 191 on the Billboard 200 Albums of the Decade. [10] It is also the band's fourth consecutive multi-platinum album in the United States. As of 2010, the album has sold 3 million copies in the United States and 5 million copies worldwide. Promotion and singles The first single from the album was Gotta Be Somebody, which was released online for free digital download on September 29, 2008 during a strict 24-hour period. [6] If Today Was Your Last Day was scheduled as a lead single, but was hacked at the last minute. The track Something in Your Mouth was available for download from the Us iTunes Store on October 28, and was released on American rock radio as the second single from the album on December 15. The song became a hit in 2009 in many countries such as the United States. In Australia, it received little air. In January 2009, the album's second mainstream single, I'd Come for You, was released, and Nigel Dick made a music video. Songs Something in Your Mouth and Record It To 2007 - 2008 - Did not enter Wal-Mart Dark Horse's exclusive edition included a link to download MP3 from Nickelback's This Afternoon performance on Wal-Mart Soundcheck. [11] The album won numerous awards at the 2009 Juno Awards, winning three of the five nominated awards, including Rock Album of the Year. Dark Horse was certified platinum by the American Recording Association (RIAA) on December 9, 2008, just three weeks after its North American release. The album also remained in the top 20 of the Billboard 200 for several weeks after its release. [13] The album was certified platinum in April 2009, and by April 2010 it had sold over 3 million copies in the United States[13] Burn it to the Ground was also nominated for Best Hard Rock Performance at the 52nd Grammy Awards, but lost to AC/DC's War Machine. On September 13, 2010, the album entered the German albums chart again at No. 30, 21 months after its debut and almost 6 months after its last record. [14] Critical Admission Professional RatingsAgregational RatingsSourceRatingMetacritic49/100[15]Points ReviewSourceRatingAllMusic[4]Blender[16]Los Angeles Times[17]Entertainment WeeklyC [10] The Guardian[19]Spin[20]Sputnikmusic[21]PopMatters[22]Rolling Stone[23]Mojo[24] According to Metacritic, the album received mixed reviews from critics, scored 49 points out of 100. [15] Conversely, it won the Juno Album of the Year award, a category whose nominees are the top five best-selling Canadian releases of the year. [25] Stephen Thomas Erlewin of Allmusic gave Dark Horse 1.5/5, writing, Dark Horse is built entirely from the band's standard power ballad and hard rock patterns, the mood only lights up when Kroeger and the company take a break to return to This Afternoon. [4] Entertainment Weekly reviewer Leah Greenblatt wrote, It's hard not to put aside the exclusive lyrics of the album's discoverer, Something in Your Mouth. PopMatters criticized the band's release, giving it 3/10 and saying it was a step down from previous albums: Dark Horse finds the band at a creative low point. Each song sounds like Nickelback's old, best hit, and Kroeger only once shows his previous songwriting power with a portrait of the sad bastard Just to Get High. [22] The Guardian awarded the album 1/5, which was particularly negative for the band's cliché style; Nickelback's music confirms every sex and stupidity hard rock clichés have to offer. [19] Rolling Stone gave the album a positive review, praising its production, writing, Mutt Lange illuminates Nickelback's awful post-grunge plough, applying guitar flicker to prom ballads and blowing big punches under fraternal screams and rap-like vocal parts. [23] Although ChartAttack attributed the band's success to his target audience: Chad Kreiger is a genius because he knows exactly what people want and how far he can go. It turned out to be an extremely piquant album, loaded with songs about getting caught up and doing it all without breaking any taboos, and with enough love and moral authority to smear its passage into the mainstream. Rejoice, North America. This is your world. [26] Billboard also praised the album's content: Nickelback's bulletproof vest provides affordable pleasure that promises good returns in difficult times.
