He calls it his first hard-boiled detective book. It was published on June 3, 2014. The novel won the 2015 Edgar Award for Best Novel by American Mystery Writers[4] and the Goodreads Choice Awards in the 2014 mystery and thriller category. On December 7, 2012, King announced that he had written his chancellor's speech in a series of speeches at Lowell University, Massachusetts, on December 7, 2012. With the work of the title Mr. Mercedes and inspired by a real event about a woman driving her car into a McDonald's restaurant, it was originally intended to be a short story just a few pages long. In an interview with Parade published on 26 May 2013, King confirmed that the novel was more or less finished. In an interview with USA Today, published on September 18, 2013, King said that although it began before the Boston Marathon bombing, Mr. Mercedes involved a terrorist conspiracy that is too horribly close to comfort. An excerpt from the Entertainment Weekly issue was published on May 16, 2014. [9] Plot Many unemployed people stand in line at a job fair, but then mercedes plow into the crowd, killing sixteen and seriously injuring many. Bill Hodges, a recently retired detective with the local police department living in the life of a pensioner, receives a letter from a person claiming that the person responsible for the work fair incident, referring to himself as Mr Mercedes. Hodges is divorced, lonely and bored with his life, occasionally considering suicide. The incident occurred at the end of Hodges' career and was still unsolved when he retired. Mr. Mercedes knows the details of the murder and also mentions Olivia Trelawney, from whom he had stolen a Mercedes. Olivia committed suicide shortly after the massacre of guilt. Hodges is intrigued and will investigate the case instead of handing over the letter to his former police colleague, Pete Huntley. Brady Hartsfield, who has been revealed to be Mr Mercedes, is an emotionally disturbed psychopath in his twenties who lost his father at the age of eight. When he was a young boy, he his mentally disabled brother at the prompting of his mother. Now he lives together and has an incessant relationship with his alcoholic mother and works as an electronics store and ice cream seller. Riding in a van, this second job allows him to follow Hodges and Hodges' neighbors, among them seventeen-year-old Jerome Robinson, who does small chores with Hodges. As he investigates the wealthy Olivia Trelawney, Hodges meets his sister Janey, who hired her to investigate Olivia's suicide and the theft of a Mercedes. Soon after Hodges starts working for Janey, the two of them start dating. Hodges learns, with the help of the bright, computer savvy Jerome, how Mr. Mercedes stole the car and then drove Olivia (with whom he made contact through his work in an electronics store) to commit suicide by leaving horrible audio files on his computer that were set to go at an unpredictable interval that escalated his guilt. Olivia, when they heard those sounds, they believed they were ghosts of the victims of the Mercedes massacre. At Janey and Olivia's recently deceased mother's funeral, Hodges meets Janey's unpleasant relatives, including Janey's emotionally unstable cousin Holly. After the funeral, Mr. Mercedes blew up Hodges' car, unaware that Hodges wasn't there. But Janey was, and she was killed in an explosion. Hodges regrets, but becomes even more eager to resolve the case without the help of the police. Holly joins Hodges and Jerome in the investigation. Hartsfield accidentally killed his mother with a poisoned hamburger he had prepared for Jerome's dog. With his rotting body in their house, he plans to kill himself, blowing himself up at a giant concert for young girls, feigning the need for a wheelchair and using explosives hidden inside a wheelchair. Jerome, Hodges and Holly can reveal Hartsfield's true identity and search his computer's hard drives. Finally, they conclude that Hartsfield's target is a concert, and the trio rush to the concert venue to stop him. Hodges begins to suffer a heart attack and is unable to venture to the concert with Holly and Jerome, but requires them to press. Holly finds Hartsfield and gives several hard blows to the head using Hodges's Happy Slapper - a sock full of ball bearings. Hartsfield is left bleeding and unconscious on the concert floor. Hodges (who was recorded by concert staff), Holly and Jerome have a picnic to discuss recently performed bright events. Hodges learned he would not be charged with criminal acts relating to the Hartsfield investigation. They've received medals from the city, congratulating them on their work. Starring Kermit William Bill Hodges - protagonist and retired detective. Later in the story, she falls in love with Janey, Olivia's sister. Brady Hartsfield – main antagonist Mr. Mercedes. Jerome Robinson - Hodges hired an aide and a close friend. She's a bright, computer-savvy youngster. Olivia Trelawney – the rich woman to whom the Mercedes Benz belonged. He commits suicide, thinking that the voices he hears (which are actually coming from his computer) are the ghosts of the people Mercedes killed. Janelle Janey Patterson – Sister of Olivia Trelawney. He encourages Hodges to investigate Mr Mercedes, and later he falls in love with Hodges. He was killed in a car bombing that was actually meant for Hodges. Holly Gibney - Janey's cousin and later, Hodges partner in the investigation. Peter Pete Huntley - Hodges' former partner. Deborah Ann Hartsfield - Brady's alcoholic mother. Later, he eats a poisoned hamburger intended for Jerome's dog and dies in a horrible death. Elizabeth Wharton - Olivia and Janey's elderly mother. The reception Mr. Mercedes received positive reviews, with many critics reacting well to the book being different from King's standard horror stories and being a compelling crime novel. It received a 4.07/5 score for Goodreads, falling to 3.87 as of 19 January with 43,562 ratings [10] and 4/5 Barnes & Noble. [11] Michael Marshall Smith of The Guardian noted the novel is firmly placed in suspense territory and a non-supernatural world - nowhere King apparently feels increasingly at home. ... Mr. Mercedes is in his heart a traditional cat-and-mouse tale about a psychopathic killer and a rebel cop who makes it his mission to take him down. Given the three levels of assessment - quality per se, the expectations of King's readers who return to its particularly unstoppable storytelling engine, his particular and highly dependable voice and the rules of whichever genre King increasingly tends to, he sums up: A good book? Hell, yes. A good Book of Stephen King? Very good location. [12] Brian Truitt of USA Today gave the novel 3 and 1/2 stars: What a random gumshoe and a freaky serial killer. ... Mr. Mercedes takes the old detective genre in a great, modern direction. He praised the fascinating look that makes the serial killer in the post-9/11 context, adding that King also really succeeds with Hodges' companions. Sheryll Connolly of the New York Daily News said the novel is a story that could almost be characterized as sweet except, of course, a sociopath in a bloody rampage. The king becomes king, and he is never less than scary. Who with his mind would want him to be? and noted that this is one of his books, where instead of it being terrible, the king expresses direct tenderness, and it is obvious here. [14] Tasha Robinson A.V. Club was more reserved, writing that the novel opens with its best moment and sags significantly in the middle, but it barrels towards a memorable conclusion ... his intense, thrust, the climax here feels like it was written with the movie in mind. His main complaint was the collection of ridiculously dubious old tropes in the middle ... halfhearted stop at Señor Lazy's Bargain Cliché Bin... predictable King-isms ... cut-out mark after well-worn tea. But he praised the novel for being unusual in its dedication to surprising readers and found it a big step up from his previous book, Doctor Sleep. [15] The main article of the adaptation: Mr Mercedes (TV series) In January 2015, it was announced that Mercedes would become a limited television series. David E. Kelley was slated to write the project and Jack Bender would be targeted. Kelley and Stephen King are executive producers. On October 10, 2017, the audience network announced that the tv series would be released. Mercedes was renewed 2.
