The Texas Bar's Family Law Practice Manual is a popular resource for family law lawyers. If you prefer to use the family law forms of the bar instead of the family law volume of TXdocs, you can now import your copy of the manual and bar forms (version 2020 or 2018) into TXdocs to use our software to generate such forms and view the manual. NOTE: TXdocs is not associated with the Texas Bar. We cannot sell or distribute their materials and receive nothing from the Bar in exchange for this import option. The digital version of the 2020 or 2018 manual is required. Click here to view the bar webpage that describes how to buy or update. (NOTE: You must purchase one of the digital download versions listed on that page.) TXdocs provides a utility that allows you to import bar modules. After that, you will be able to assemble the copy of the family law modules of the bar, just as you assemble TXdocs shapes. The notes of extended practice in the bar manual are a fantastic resource. TXdocs provides a simple and convenient window to open and view the pdf version of the manual. Do you have any questions? Call
