The Escalation Protocol in action

Destiny 2 Wiki Protocol protocol is an added public square in Warmind. The escalation protocol overview follows the general clearing crowd and the head of the killing structure. Complete all the goals before the time expires. Most levels have four waves with the following structure: activate the site of the incursion annihilation most cell locating and disable the Shadowrifts cell to exterminate most cell annihilation all cell heads during each level, and the armory will become damaged. If one interacts with them while in possession of rasputin's armory code, corruption diminishes, and Rasputin gives a gift of activating the Falkeri sub. This gives valkyrie player to slay the cell with, although it is best to use this Valkyrie wisely as the symbols of the weapons are uncommon and will quickly exhaust their ammunition. Activating and completing patrols will not interrupt the escalation protocol, so it is recommended to take any of them related to the killing of the beehive for easy experience and rewards. If a public event occurs while attempting an escalation protocol group at levels 1 to 5, the next level will start immediately at the site of the public event. Aim state level, complete the heroic event and exterminate all cell employers with only 1 current wave. You will play the event as the mash of a normal public event with tough escalation protocol enemies spawning, as well as a level boss spawn immediately. It is recommended to visit Ana Bray and draft the encrypted cache key before the escalation protocol begins. Completing 7 levels with it in your inventory (not necessarily to be consecutive) converts it into a decryption cache key that can be used to open the chest that reproduces on level 7 after defeating the final boss. Level 1 levels Wave 2 presents shadowrifts cell, which appear as green neon runes on the ground with 3 floating protected crystals. A pack of 3 Acolytes spawn from the rift periodically. Players must stand on the green neymar in order to dissipate the protective shield of crystals. Destroying all of the crystals closes Shadowrift, and the knight secretes the pieces. Defeat him drops his blade, which can be used to defeat most of the cell with ease. While equipped, this sword will charge its own super capacity, leading to a strong slam attack and a pulse shock in front of you. Wave 4 concludes the level with a trainer battle against Torrent Chambling, an exceptionally large ogre. He doesn't have as much health as other presidents, nor has any special mechanics, but he should put forward a fair fight for less seasoned groups. Level 2 Wave 2 after another Shadowrift to be closed. Wave 4 concludes the level with a boss battle against High Ken, an exceptional tanky wizard. It is extremely mobile and carries the greatest health of all the 1-6 level escalation protocol presidents. It's very hard to defeat, and intended to be a measure of The ability to process the escalation protocol. If they can be defeated within a fair time, the rest of the heads of the protocol of escalation must also be able to defeat in a fair time. Level 3 Wave 1 offers an Unhallowed awe cell, which is stronger than an unusual cell. This cell should be treated as targets worthy of the use of an energy weapon, if faced with one player while away from the group. All enemies are able to spawn as there is no unhallowedowed Dread from this point onwards. Wave 2 presents the side of several Shadowrifts appearing at once. Two will break on this wave it is recommended that an equal part of the team is divided between each shaded, so 3 for each crack if the group consists of 6 players, etc. Wave 3 concludes the level with a boss battle against The Blade Strangler, a large vanquish cell. Level 3 Wave 3 is unique in that the cell boss does not wait for wave 4 to spawn. This means that it is very possible for the entire group to take the knight blades cut from wave 2 and charge the blade throttle. Level 3 chest set gifts when finished, which carries rare loot, Mars icons, very rarely in the Pacific Deception Sparrow and Slyswell Nullifier99 ship. Level 4 Wave 2 still has two Shadowrifts, just like Level 3. Wave 4 concludes the level with a remarkably harder trained enemy. A duo of giant dark cell knights named Deaf burst, accompanied by a regeneration wizard, must be defeated. The Knights have a strong AoE slam attack if one gets near them and the wizard will heal the knights slowly if they are nearby. More cell will also attack you during this boss battle than usual, so be careful of them. All of the knights must be defeated in order to clear the wave, but the regeneration processor is optional, so it is better to simply overcome its healing aura. Level 5 Wave 2 increases the difficulty of the Shadowrifts stage by having 3 Shadowrifts spawn. Wave 4 concludes the level with two Shambling torrents and another regeneration processor accompanying them. Like with Level 3, the chest will be excreted at the end of Level 5 containing rare loot, Mars icons, very rarely pacific fooling sparrow and Slyswell Nullifier99 ship. Level 6 Wave 2 is very similar to the last level 2 wave, with 3 Shadowrifts spawning. Wave 4 concludes with the duo of Dark Knights named Deaf blast and regeneration wizard. Level 7 Level 7 is the conclusion of the escalation protocol. 5 unique bosses sessions each week, in the following order: Noor Apath, Crest of Xol - a large ogre who acquires an indestructible shield when any cell is close to him. Kill all the less monsters and then damage The Light of Apath as fast as you can before more spawn in. Kathok, the roar of Xol - a great vankshir who has a shield that can only be destroyed by the blades of cutting knights who spawn during the battle. Once his shield is dropped, regular weapons can be damaged from a safe distance. Mask - a large ogre is immune against all the damage from the front, but has a weakness on the back. It's best to split your team so that one group can shoot it most of the time. Be careful not to run around his feet as often as he will slam the attack and track down anyone not, making it difficult for the team to reach its weakness. Naksud, famine — a big ogre who is always vulnerable to harm, but he will spawn the cursed Thralls especially who rush him and heal him when blasting. It is better to reduce the amount of enemies on the battlefield at all times, so it is easier to focus the fire on the cursed Thralls when they spawn in. Talkers should consider putting Shadowshots in strategic locations for Tether thralls before they can reach the boss. Bok Letor, hunger of Xol - a great knight who is always vulnerable to harm, but has an incredible amount of health. He will spawn in battery Acolytes often, who drop many orbs of light to death. Super capabilities will be the best way to destroy the boss. The bonuses are guaranteed 1 pieceof armor from level 7 chest, and the rest of the bonuses are random. Weapons fall from some level 7 bosses. Other of these elements is a drop of level 3 and level 5 releases: Pacific Fools Sparrow Bluff 99 Ship Destiny 2 event protocol escalation despite being out for some time, has remained relevant over the years thanks to some solid weapon bonuses, and spot-looking shields. If you are here, you are probably wondering how to get a protocol shield and weapons for yourself. It's kind of a complicated system, so let us explain. How to get weapons, protocol escalation and armor in Fate 2Whether you dive into the last community event, agriculture Ikelos\_SG, collect armor for another glitter shield 2.0 or just play protocol escalation for fun, and you're going to get to deal with exactly how the bonus system works. Let's start with weapons escalation protocol weapons: gun, SMG, SniperIn order to get shot at getting a weapon from the escalation protocol, you need to scan the final trainer at the end of wave 7. These bosses are a big challenge and they spin every week. There are a total of five presidents in the PEOPLE's Army and each of them has a possible different loot pond. Every Tuesday at the time of reappointment, the presidents will turn. Below you can see the order of the bosses appearing in (go to the next one each week) and drops possible. The rate of low weapons is very low and is supposed to be somewhere around 5-10%. You may need a very little farm to get the weapon you want. Fortunately, once you clear wave 7 run, if you start another EP in the same location, you'll be able to pick up from wave 6, saving you and everyone you're running with a large amount of time. Trainer NamePossible Ecløs Weapon Dropblack, FamineShotgun, SMG, Litur, Hunger of XolShotgun, SMG, SniperNur Abath, Crest XolShotgunKathok, Roar XolSMGDamkath, maskSniperEscalation Shield Protocol: Fragments and Keys Storage Guide To-Oblivion Escalation Protocol Shields is a completely different ball game and pretty much nothing above applies except the fact that you'll need to clear wave 7 boss in order to claim some loot. At the end of a successful EP run, you'll notice the chest locked near the final Warmind column. Here's the process of getting a decryption cache key: Collection Seven (Green) Rasputin Key FragmentsThese are dropped from the following activities on Mars: public events, patrols, heroic adventures, and Nightfal Martian strikes. You can get seven of the nightfall.Bring Anna Bray's seven rasputin key fragments and convert them into an encrypted cache key (blue) option will be in their stock of goods. Scanning seven waves of escalation protocol to convert it into a decryption cache key (purple) can be all 1-7 or wave 1 seven times or anything in combination. Defeat the EP trainer and then open the chest using the decryption cache key to get a random piece of armor. Now here's an important note. While ana Bray key fragments will only be converted once a week, and you can only keep the encrypted cache key (blue), you can keep the encrypted (purple) cache keys as you want. So if you read this pre-Shield 2.0, you may want to consider planting every week for decryption cache keys and attach them to get multiple cracks in the 3rd year version of The Escalation Protocol Shield when launched. Hopefully this demonstrates how to get the escalation protocol shield and weapons in Fate 2. Best luck farming! Agriculture!
