Inactive Website Java Edition 1.7.5 No Java whamtet MCDungeon creates randomly created mazes and treasure hunts at an existing level. Can work with Minecraft at 30:1. Inactive Website Java Edition 1.7.5 No Java whamtet MCDungeon creates randomly created mazes and treasure hunts at an existing level. MCTerra can create flat maps, biosphere maps, Gold Tunnel Maps, and Planetoid Maps Forum Inactive Java Edition 1.2.5 No Delphi Mozzg Space Control global parameters by surface biomass - Tweak settings for Minecraft's minecraft built-in biomes and custom biomes of your own - Resource distribution to fine-tune by Your taste - add custom objects and trees to your world - enable or disable the villages of Minecraft, strongholds, pyramids and abandoned mines - has a user interface (by Genae) to easily modify the configuration files - return minecraft 1.7 space generator to continue expanding your heritage worlds - create a map from an image - running with a multiplayer server and single player. The forum site inactive Java Edition 1.7.9 Yes Java Khoorn TOGoS minecraft map generator creates new chunks based on user-defined functions. Functions have full control over block location and can use 3D praline and Simplex noise to create any combination of oceans, continents, caves, lava pits, mountains of wool, giant obsidian sponges, etc. The forum site inactive Java Edition 1.5 Yes Java TOGoS MCPEGenerator This program is in development. It produces worlds using a simplex noise algorithm and allows for four different types of generator are customizable. Forum Inactive Pocket Edition Alpha 0.6.1 No Java jocopa3 of Sibai Dungeon Adventure Generator creates a huge world made of 4 segments. The actor goes through dungeons to get to the last world. Dungeons are randomly selected from a variety of different types of terrain. Trips run through the lower portals; The player enters a lower gate, walks along a small corridor and goes to another gate to reach the next area. Inactive Forum Java Edition 1.2.5 Not N/A Seibai Seibai Forest Map Generator creates a forest surrounded by rock walls. Love this property, but you're still not entirely sure? Although the generator is made for Alpha v1.2.1 01 it still works with 1.5.2, but only if you convert the world twice (first with beta 1.7.3 jarfile, then with Jarfile 1.0 and finally with 1.5.2). Forum Inactive Java Edition Alpha v1.2.1 01 No N/A Seibai Seibai's Golden Tunnel Map Generator Creates a Nearly Flat World With Giant Underground, containing trees, glows and light trees. Although the generator is made for Alpha v1.2.1_01 it still works with 1.5.2, but only if you convert the world twice (first with beta 1.7.3 jarfile, then with Jarfile 1.0 and finally with 1.5.2). Inactive Forum Java Edition Alpha v1.2.6 No N/A Seibai Seibai's Map generator creates a skylands-style map with many fixed parameters (just like island size etc).). The generator was created for beta 1.3, but you can still use it by first converting the world with jarfile 1.5.2. Inactive Forum Java Edition Beta 1.3 No N/A Seibai Seibai of Planetoids Map Generator Creates planetoids made of various materials. The entire map is surrounded by rock walls. The stone planets keep materials inside such as antennas. The stars of the leaves hold a massive wooden core. Note: Mod generation worlds better added this abandoned mod to each other's world with dunes, sharp stone mountains and underground mazes. The map includes a rock wall. Outside this rock sand is normal terrain. Survival is hard in the desert because food and wood are rare. It still works with 1.5.2, although it doesn't create new boxes!
