How did you feel joy before the button clicked and the three books, MCT oil jars, digital cameras, and selfie rods were displayed on the front after 48 hours? (So to speak, you can get a glimpse inside byrdie's real Amazon cart.) As a beauty lover, one of my favorite things to do with online shopping is the exciting beauty gadgets. If you've ever found yourself on that side of the Amazon, you know that there are dozens, ranging from practical to wacky (nose lifters and shapers, anyone?). We're all down to the Amazon black hole, but if you're interested in the more practical aspects of the site's beauty device, look at this list. The product sits on two fingers like a puppet. Pop it up, then apply some soft cleanser (\$13) or brush cleaner (\$16) to the brush, and get scrubbing. The washboard cleans the bristles better than your fingers. Plus when you're done, your hands are wrinkled. The tip of the spatula is small and inspiring, making it a good fit for most containers and effectively grabbing the remaining products. Oh, Amazon, back to smart beauty tools. I think we can all agree that cleaning the hairbrush, even our own, is just Fortunately, the clever people of Luwigs have invented this (rather wacky looking) hairbrush cleaner to help us understand the struggle.
