Amana refrigerator support

California residents may request access to and deletion of certain Personal Information and opt out of the sale (as defined in CA law) of certain Personal Information. To apply, select CCPA Privacy Requests from the contact form on this page, indicate what you are requesting in your comments, and our agents will contact you. For more information, see our Privacy Notice linked in the footer of this page. No Full-Size FridgesFreezersWater Filter Headers Was this article helpful? What can we help you with? Monday & Tuesday: 8:00 am to 7:00pm (EST) Wednesday to Friday: 9am to 7pm (EST) No Headers Quick Links: Discount Center | Register your device | Product Recall LaundryRefrigerationCookingDishwashersFAQ Refrigerator that is not properly aligned and / or does not have a properly positioned door may have some of the following problems: Doors can not close or seal properly Accumulation of frost or problems with moisture Temperature fluctuations Can not properly align the door Door switch can not properly start Check that the floor under the refrigerator is aligned. If the floor is not the level of the washer you may need to use for the correct level of the refrigerator. If the refrigerator comes out, rocks or is not stable CLICK HERE to solve it is important to make sure that the refrigerator is aligned before aligning the door. A properly leveled refrigerator will help in the overall proper functioning of the refrigerator. For details on how to level the refrigerator, refer to the owner's manual or installation instructions. NOTE: When aligning the refrigerator, make sure that you are in front of the back and side to side. If you would like to download or view product literature for your device, please visit our Manuals and Literature page. Find the manual you need by adding the Amana SKU number below®. Enter the model number to search for. Still can't find what you're looking for? We are here to help.
