Sygic Update update installs the new version of the top of the old one. Note: Sometimes when upgrading Sygic from one version to another, you may get the App not installed, this is because the apk hash of the new version is different from that of the previous version. If this happens, do the following: Open file manager and go to the following path: /android/data/ Rename the folder com.sygic.aura com.sygic.auracopia Uninstall the old version of Sygic Install the new version of Sygic and do not open it yet Open file manager and rename com .sygic.auracopia folder com.sygic.aura (if folder com.sygic.aura already exists folder delete it and then rename it) Now you can open Sygic How to download cards for Sygic There are two ways to download cards for Sygic: From the same application, enter the menu / Manage maps and press the sign + Download Sygic

PC Maps Download PC (Windows), download the maps to your PC and move them to / android / data /com.sygic.aura/files /maps previous versions of Sygic Sygic folder downloads every week a new version fix bugs We know it's very difficult to update every two times three, but I recommend updating every time you skip an official version. For example, they are currently version 18.7.x if you change x is to fix bugs, you do not need to update unless you notice anomalies in the application. If you miss version 18.8.x or 19.x.x then yes, update, because you will certainly add interesting features. Anyway, I'll leave you from previous versions of Sygic in case you are not convinced by the current version or your phone has an older Android that does not support new versions of Sygic. Note: To go back to an older version without losing data, do the following: Open file manager and go to the path / android / data Rename the folder com.sygic.aura com.sygic.auracopia Uninstall Sygic from your phone. Install the old version and do not open it yet Rename the folder com.sygic.auracopia com.sygic.aura Now you can open sygic. Sygic.
