Play for free right now! November 16, 2020 version 1.5.7 Bug fixes and performance improvements. A lot of fun &; Addictive game, great for stress relief. Early levels are great for kids starting around age 6, but end up getting too hard, but it's great because I was able to enjoy it with my baby first and then went on to tackle all the other puzzles on my own. I am currently two words away from solving the last word search. The latest update, which added new levels, seemed much easier than previous levels were, they should get more difficult as they go up (as they used to). Also, I've recognized old puzzles that have been added as new levels, which is just lazy (and almost makes me want to pick up a star, but I won't because I've enjoyed this app so much). I really don't want to delete it, but I'll have to if new levels don't be added soon. A few weeks was better than nothing or waiting months and months for a bigger upgrade. I really hope some kind of update comes out once I love doing these word puzzles to wind up before I go to bed &; &Puzzles are great for this, although sometimes I need or want a little more. In my opinion, no game is perfect and that's why I gave this game only four stars. I've been playing this game for a few years now and as a weekly, sometimes even daily, player I've been pleased with the game and that's quality! There is hardly anything negative to say about this game and I believe it has created a fun game that my family and I both enjoy! I've played through all the updates and all the changes, but the quality of the game and the fun of the game never diminish. As I've said before, there's really nothing negative to say about this game, to accept the fact that it really does get extremely difficult. I'm not saying at all that this game is impossible or it shouldn't be difficult when you get to tougher levels, I just point out that some of the levels should only be made the least slightly easier. Again, that's just my opinion. Except that this game is fun, addictive, and a great game for all ages. On top of this there are no tons of ads like most games! I love the game and I will definitely keep playing!!!!!!!!!!!! □ while my initial ranking was high for a fun and enjoyable game I have mistakes to add. I've repeatedly played short video advertisements to keep my cost low or \$0 spent on games online or that I decide to download. With this game I am often told that I have to watch the whole add. No problem to accept I repeatedly Watched all the advertising and counted on 15 before pressing the x button to get my free points to use for prompts etc I'm up to just 3.8% of users who get that far in their puzzle words to solve in their game starting at 100%. If others like me got this far just to remove this game app and quite, it wasn't because the puzzle came across them. If I, like me, they like to save money, then that's because they're too tired of watching the same advertising all the way through just to say they haven't done and had no way in setting up to contact the game's technical support staff at all if they exist. I used to think it was a relaxing fun challenge to relax like a crossword puzzle, but the letters are right in front of you. Fun, perhaps, and worth a try. If you don't mind technical issues without the help available, then it costs your time. Developer Website App Support Privacy Policy As you've seen, we're posting in this Section of the Weekly Response Call for Word Whizzle Pop Game. This is the newest game from a company called: Apropoe. On this site we posted Word Whizzle Pop Replies for all 3000 levels and we do daily posts for the word whizzle pop daily puzzle.
