It is a sequel and spin-off of Iron Man 3, and is the fifth film in the Marvel One-Shots short film series. The film is written and directed by Drew Pierce, and is set in the Marvel Cinematic Universe, sharing continuity with the movie franchise. Starring Ben Kingsley, Scout McNairy, Lester Speight, and Sam Rockwell, with Kingsley reprising his role from Iron Man 3, and Rockwell reprising his role from Iron Man 2. In All Hail the King, the documentary filmmaker interviews notorious fake terrorist Trevor Slattery from behind bars. The plot of Trevor Slattery, who was captured at the end of Iron Man 3, is currently in Seagate Prison. In prison, he lives luxuriously, with his personal butler Herman and other prisoners acting as his fan club and defense. Slattery gives an interview to documentary filmmaker Jackson Norris, who wants to chronicle the events of the Mandarin situation seen in Iron Man 3. Norriss, trying to learn more about Slattery personally, talks about his past from his first casting as a child, as well as his role in a failed CBS pilot. Norriss eventually tells Slattery that his image angered some people, including the actual terrorist group Ten Rings, of which Slattery was not aware of. Norris tells him the story of a Mandarin and a terrorist group before revealing that he is actually a member of the group. The real reason for Norriss interviewing Slattery is to pull him out of prison so he can meet the actual Mandarin. Hearing this, Slattery still has no idea of all the consequences of posing as a tangerine. Starring Ben Kingsley as Trevor Slattery: A Prisoner at Seagate Prison Who Jackson Jackson's documentary Kingsley reprise the role from Iron Man 3. Scout McNairy as Jackson Norriss, a member of the terrorist organization Ten Rings, posing as a documentary filmmaker. In the comics, the character's name is Norris, while a video released as part of the viral marketing campaign Captain America: Civil War in May 2016 showed that a separate character named Jackson Norris actually exists elsewhere in the MCU. Lester Speight is Slattery's butler and protector in Seagate. Sam Rockwell as Justin Hammer, a Seagate prison inmate who was a gun manufacturer. Rockwell reprises his role from Iron Man 2. On rockwell's cameo, Pierce explained that Marvel and Rockwell were on board for him, but Rockwell was unable to do so due to production on the Poltergeist remake. However, during the post-production of this film, Rockwell read the script for Short and called Pierce, saying he was happy to take part if his scenes could be filmed in an hour in Toronto. Pierce went to Canada, and Rockwell came and just nailed it. In addition, Matt Gerald portrays Dave's White Power; Crystal Monkey depicts a monkey bar; Allen Maldonado portrays Fletcher Heggss, who has a chess tattoo on his face, as a nod to the comics, where he is a minor character and is beaten by The Knight. Production After Ben Kingsley was attached to All Hail the King, additional crew members signed the contract. Drew Pierce, co-screenwriter of Iron Man 3, and producer Stephen Broussard had the idea for short All Hail The King during the production of Iron Man 3 to provide a fresh look at the Mandarin character. Marvel Studios and consultant Joss Whedon were confident of a short, dependent on the participation of Ben Kingsley. In October 2013, Kingsley announced that he was working on a secret project with Marvel involving many crew members who were involved in Iron Man 3. It later emerged that it was a short film written and directed by Pierce. Iron Man 3 director Shane Black felt that Marvel saw so many negative things around the Mandarin image that the short was created as an apology to fans who were so angry. Although part of the dialogue was written in response to criticism of Iron Man 3's Mandarin, the story was written simply as a continuation of the Ten Rings and Mandarin storyline shown in all Iron Man films. Pierce wrote short to be ambiguous enough that the storyline could be further explored in future films or television series. At Ten Rings, Pearce said he found the band to be a very powerful part of the MCU because of their introduction to the first film universe, and noted that producer Kevin Feige was pleased to see a member of the organization be genuinely vicious. Because of this, Pierce worked to make the action in short real and brutal to The more comedic tone leading up to it, which he felt would increase Slattery Kingsley's humour anyway, given that the character doesn't respond to anything the same as any other right-thinking person should. Speaking about adding Easter eggs and nods to the comics, Pearce noted that his addition to the script doesn't necessarily mean they were part of Marvel's larger plan for the MCU, and said he enjoyed things he's full of MCU and is waiting to see if some of them stick and some of them left just a kind of charming nod. The name Caged Heat was previously used by Marvel as a working title for Iron Man 3. The short film was shot in Los Angeles, with a cameo by Sam Rockwell, shot in Toronto on set, which was written as filming in Los Angeles. The music for the short song was written by Brian Tyler, and Caged Heat's scenes, composed by 1980s television icon T-shirt Post, were inspired by Dr. No, Charade and Iron Monkey, as well as other films about the exploitation of Kung Fu. All Hail the King was released digitally on The Dark World on February 4, 2014 and February 25, 2014 for Blu-ray. It was included in the bonus disc of the box disc Marvel Cinematic Universe: Phase Two Collection, which includes all films of the second stage of the Marvel Cinematic Universe, as well as other Marvel One-Shots. The collection contains audio commentary by Pierce and Kingsley, and was released on December 8, 2015. Cliff Wheatley of Reception IGN gave All Hail the King 9.4 out of 10. He said it was a return to the love identity of the hapless Trevor and a step forward for the greater Marvel cinematic universe. It has its twists and turns that should satisfy both fans and haters Trevor Slattery. But it's the approach that Pierce takes with the material, from the kung fu-style film to the credit sequence of a light-hearted tone that takes a sudden and sharp turn. Kingsley shines again in the role of Slattery, aside and ignorant, but more than happy to slide back into Mandarin mode if he will delight his adoring fans. Pierce does go for some of the same jokes from Iron Man 3 in a kind of reference way, but that's nothing too harmful. Devin Farachi of Birth.Movies.Death called the short film another great short film from people at Marvel Studios that he believes deserves to be shown in theaters, not just released on home media. He felt that Slattery's character had used the perfect amount in Iron Man Three, and giving him more screen time here in the side project feels the right way to get back to it. Kingsley has a blast, providing many wonderful jokes and plunging straight into an ignorant, self-centered character that represents all our worst stereotypes . Farachi Farachi Caged the heat of the sequence as well as the Rockwell cameo, and positively stated on the tangerine reveal rather than retcon it feels like an extension, pulling back the curtain to reveal more of the picture. Conversely, Andrew Wheeler of the Comics Alliance criticized the presentation of a short book on homosexuality, given that it was Marvel's first attempt to bring LGBT concepts to the MCU.
