Luck Vermont Lottery Awards To make it a little more confusing, vermont Lottery 2 Chance Drawings are two types:1) Regular 2 ChanceThis is one of the main we have ever discussed. These second-chance drawings are made four times a year, on the second Wednesdays of March, June, September and December. There's only one big prize in every second-chance draw. The grand prize here will be the biggest prize of the original game. For example, the last \$2 Triple 333 instant ticket, you can win the grand prize was \$3,333. Thus, the only prize awarded in the second chance draw is \$3,333. But in addition to the grand prize, quarterly sweepstakes are made where at least 100 losing tickets are withdrawn. The owners of these more than 100 tickets receive the same cash reward. Cash rewards vary, but have never been under \$200. December quarterly drawings offer the largest number of awards. Last December, for example, 225 different people entered any second-chance lottery drawing gave a cash prize of \$200.2) Promotions 2 ChancePromotions 2 Special second chance drawings with the added chance to win chance drawings, though usually with smaller prizes than normal second chance drawings. For example, recent rewards for these promotional drawings include \$100 gift cards, New England Patriots game tickets and (very low end), camp coolers. On the other hand, there have been promotions with \$25,000 winners and 8 different \$1,000 winning games. VTLottery.com'll see a promotions page. Going there will show you which games have these second chance rewards. Normal 2. A 2019 \$5 Frogger scratcher promotion had a second chance drawing that gave 20 different people \$500 away. This life of course does not change the money, but it still seems worth going after these rewards, considering that this is not usually high in attendance rates of second chance drawings by seeing it as no fee to enter (except for the cost of losing tickets). Based on data I've received from other states, you usually have a better chance of winning a bigger prize than in the original game in the second-chance draw.
