List of Aincrad Kirito /Kazuto Kirigaya 桐Kirigaya Kazuto Voiced by: Yoshitsugu Matsuoka[1] (Japanese ed.), Alessio De Filippis[2] (Italian ed.) Kirito is the protagonist of Art Sword Online (SAO). Having been one of the few beta testers, he was able to experience the game before the official release, and can flaunt amazing experience and knowledge of SAO. Some time after the game begins, Kirito joins a guild, hiding from them that he is a Scout (a term kirito himself called, which is the union of Beta Tester and Cheater), but while exploring a dungeon they fall into a trap, and Kirito's companions are victims of enemies much stronger than them. Kirito, feeling responsible for the incident, decides to continue his journey to the 100th floor alone without involving other players. Kirito's abilities will improve even more when, mysteriously, one day he realizes that he has access to an unknown skill never seen before in SAO, the wielded double; not to provoke anger or envy from other players, it will try to keep this ability hidden. Asuna (アスナ, Asuna Yûki) / Asuna Yûki Voiced by: Haruka Tomatsu[1] (Japanese Ed.), Francesca Manicone[2] and Jolanda Granato[3] (Italian ed.) Asuna is one of the first people kirito will establish a friendship with. Asuna is famous for its incredible speed, so much so that it is nicknamed Asuna the Lightning. After the first encounter with Kirito, the two will split up, and when they meet again, it will be discovered that Asuna has become one of the deputy commanders of the Blood Knights, the strongest guild in all of SAO. Initially, Asuna's only thought will be to finish the game, believing that every day past there is a day lost in the real world; this is until he falls in love with Kirito, realizing that despite being a virtual world, the relationship is true. Klein (のの Kurain?) / Ryôtarô Tsuboi (暁 - 遼 Tsuboi Ryôtarô?) Voiced by: Hiroaki Hirata[1] (Japanese ed.), Gabriele Marchingiglio[2] (Italian ed. ) Klein is a novice player who meets Kirito on the official opening day of Sword Art Online and, having recognized him as a beta tester, asks him for courtesy to teach him the basics. The two part on the same day, after Kayaba explains to all players what he calls the SAO tutorial. Klein proves to be an open and sociable person, defending and respecting Kirito, despite the prevailing and negative opinion about beta testers. When they meet, Klein holds the position of head of the Fuurinkazan guild, whose members have weapons and equipment dedicated primarily to the red color and follow aesthetically those of the samurai of the Sengoku era. Despite not traveling alongside each other, Klein regularly meets Kirito and his friends, and occasionally performs missions

with them. Yui (*のの* Yui?) Voiced by: Kanae Itō[japanese ed.], Annalisa Usai[2] (ed. Italian) Initially a character present in the side stories dedicated to the world of SAO, she will then play the supporting role pg in the ALO in the form of Pixie. Yui, mistaken at first for a lost child, turns out to be an artificial intelligence program within the game. Its full operational name is MHCP v.1 (Mental Health - Counselling Program), also called Yui for players. The main goal of this AI is to monitor the emotions and feelings of players, stand by their side and help them. After the radical change that the world of SAO suffered during the first official opening day, it is strictly forbidden to contact players, and their function is lost. Unable to do anything but observe the suffering of the players, her encounter with Kirito and Asuna presents her for the first time with feelings of joy and peace. She is initially mistaken for a lost child amnesia, so the two decide to keep it under their own ward. Its true identity is discovered when, as an artificial program, its cancellation is decreed by SAO. Yui is saved by Kirito, who stores his data on his NerveGear. Yui usually referred to Kirito as Dad and Asuna with his mother. Evil digests when a girl besides Asuna approaches Kirito. Heathcliff ( ), Akihiko Kayaba (2019) Voiced by: Tōru Ōkawa[1] / Kōichi Yamadera[1] (Japanese ed.), Marco Balzarotti[2] / Massimiliano Lotti[2] (Italian ed. ) Kayaba is the director and creator of Sword Art Online, as well as the main antagonist of the first narrative arc. It is because of him that players connected to SAO cannot voluntarily leave the virtual world via logout. In addition, it prevents nervousness from being removed through third parties, as the hardware would destroy the player's brain (through a system that generates very powerful radio waves) in case of forced removal. The goal, he says, has already been achieved, namely the creation of a real alternative world, and he wants to limit himself to observing the unfolding of events. According to these intentions, he hides under the respected guise of Heathcliff, head of the Blood Knights guild, actively participating in the virtual world. Although his avatar has the protection of immortality, Kayaba does not strictly need measures like this, such as the creator of SAO, he knows perfectly all of his game mechanics and the best way to fight them. Thanks to this protection, Kayaba defeats Kirito in a first duel, but is discovered by Kirito, who demonstrates his immortality to the entire Blood Knights guild when, after the fight with the 75th-floor boss, he attacks him with a surprise attack that would have resulted in him being lethal. Despite not resorting to its true features not to be identified, Kayaba chose to create her own NerveGear with orders to destroy her brain in the event of defeat. Agil (100) / Andrew Gilbert Mills ( , Girubāto Miruzu) Voiced by: Hiroki Yasumoto[1] (Ed. Japanese), Claudio Moneta[ed. Italian] Agil (or Egil) is an adult man who also loves online video games, and one of Kirito's closest friends within SAO. In the game he runs an arsenal, while in the real world he runs a pub. He joins some forays organized by guilds. Your weapon is a big axe, so it's mostly based on heavy attacks. Silica ( , Sirica) / Keiko Ayano ( 綾 瑠 Ayano Keiko? Voiced by: Rina Hidaka[1] (Japanese ed.), Serena Cleric[ed. Italian] Met by Kirito in SAO The first time. Silica is a thirteen-year-old girl who, in a relatively short space of time, learns to tame a very rare creature, a dragon (named Pina), despite being a mid-level player. She enjoys a reputation that has caused many players to flatter her and try to soften her (being a Japanese idol), making her outof her time. She is used to distancing herself from male players who offer her weddings in the game, despite her young age. One day Silica is lost in a forest, losing its own creature, but fortunately is promptly rescued by Kirito. The boy is incredibly comfortable and willing to help her, as her features remind him of his younger sister. Thanks to Kirito's fundamental help, Silica manages to bring her dragon back to life and discovers that a so-called scout accompanied her, but does not fear him, as she believes there is nothing to fear from being by the side of such a kind person. At ALO, Silica is an integral part of the guild that founded Kirito and Asuna, along with Lisbeth, Leafa, Klein, Sinon and Yui. Lisbeth (*ののの* Rizubetto?) / Rika Shinozaki ( 篠 - Shinozaki Rika) Voiced by: Ayahi Takagaki[1] (Japanese ed.), Loredana Foresta[ed. Italian] He's a blacksmith. Asuna and Kirito call her Liz. He initially falls in love with Kirito, but suppresses his feelings when he discovers that he and Asuna are in love with each other. At ALO, Lisbeth is an integral part of the guild that founded Kirito and Asuna, along with Leafa, Silica and Yui. Sachi ( い Sachi?) Voiced by: Saori Hayami[japanese ed.], Emanuela Pacotto[ed. Italian] Sachi was a member of the Moonlit Black Cats guild, the first guild kirito joined. She dies in a dungeon with almost every member of the guild, leaving Kirito in despair, as he cared so much about her. He left a message for Kirito, which is delivered to him on Christmas Day. After this episode, Kirito no longer partied with anyone, until she began to stand next to Asuna. Sasha ( しゃ sasha?) Voiced by: Kyoko Fujii[1] (Japanese ed.), Martina Felli[4] (italian ed.) SAO player who cares for children without parents in the church on the 1st floor. Asuna and Kirito help her when army guards blind her and part her from some of her children to extort money from her. Dabel (2008) Voiced by: Nobuyuki Hiayama[1] (Japanese ed.), Paolo De Santis[2] (ed. Italian) Former beta-tester who indexes the meeting at the start of the game and dies in the fight against the boss of the 1st floor while trying to win the rare reward item during the final attack. Kibaou ( ) Voiced by: Tomokazu Seki[1] Japanese player who from the beginning of the game proves to hate beta-testers. Later in the story, it turns out that he has risen at the helm of an Army group and creates hostility on the 1st floor by sending players with the highest levels forward. He found a secret hunting ground under the Primitive City where he imprisoned one of the army's leaders. Yulier (Yuriēru? Main characters in Alfheim Online Leafa (*のの* Rifa?) / Suguha Kirigaya ( 桐 - Kirigaya Suguha? Voiced by: Ayana Taketatsu[1] (Ed. Japanese), Eva Padoan[2] and Jolanda Granato[5] (Sword Art Online - The Movie: Ordinal Scale) (ed. italian) She is Kirito's sister and prima adoptive. Suguha (sometimes called Sugu) is a diligent student who has an interest in sports (in fact she practiced kendō for eight years). After Kazuto gets stuck in the world of SAO, Suguha decides to play ALO under the nickname Leafa. He has feelings for Kazuto, but does not know that those he feels for Asuna are too strong for anything to emerge between them. He accidentally encounters Kirito in the ALO, where players do not retain his real features, helping him search for and rescue Asuna. When she realizes the depth of Kirito's love for Asuna, and realizing that Kirito is Kazuto, she decides to give him up. Oberon, the Fairy King (*ののののの の ののの の* Yōsei-ō Oberon?) / Nobuyuki Sugō ( 十 束 Suigegō Nobuyuki?) Voiced by: Takehito Koyasu[1] (Japanese ed.), Ruggero Andreozzi[ed. Italian] Main antagonist of the second narrative arc, Nobuyuki is the director of the recto progress research institute Inc.. Chosen by Asuna's father to marry his daughter, he was adopted by the Yūki family for this reason. He is responsible for not waking up 300 people connected to SAO, including Asuna, after the VRMMORPG (Virtual Reality Massively Multiplayer Online RPg Game) was completed. They are all victims of transference and forced permanence in the virtual world of ALO, in which Nobuyuki impersonates the avatar of the King of The Oberon Elves, and intends to study a possible enslavement of the human mind induced by FullDive technology. She locks Asuna and, despite keeping her as a prisoner, will often see her and refers to her as Titānia, Queen of the Fairies. Using his system commands, he gives it to Kirito, who reached the top of the large Yggdrasil tree to save Asuna, a scorching defeat, and tries to rape Asuna, but the two are saved by the Phantom Program of Akihiko Kayaba, nobuyuki's old acquaintance who has always lived as a rival. After seeing all his projects go wrong, Nobuyuki, blinded by hatred, will try to kill Kirito even in the real world, an attempt that will not succeed and cost him freedom. Yūki (*の*-Yūki?) / Yūki Konno ( 紺 - 綿 Konno Yūki?) Voiced by: Aoi Yūki[6] (Ed. Martina Felli (Italian ed. ) Yūki was born on May 23, 2011. In real life, she appears as a brown-haired girl with helmeted hair and has a very slender body, while her AVATAR in ALO has long purple-black hair and red eyes; she wears obsidiana armor, a purple skirt, and a thin black hem hanging at the waist. Sinon also appears in the ALO as archer Cath Sith, helping Kirito retrieve the Sword Excalibur. Death Gun (*の*- Desu Gan?) / Kyōji Shinkawa ( - Shinkawa Kyōji) Voiced by: Sōichirō Hoshii[6] / Natsuki Hanae[6] (Japanese ed.), Marco Balzarotti / Jacopo Calatroni (italian ed. ) And as a real-world suitor for Sinon, he uses Spiegel's character in GGO ( ), but uses the Death Weapon avatar to shoot XeXeeD, who has proven to be the strongest player. Kyōji hated XeXeeD because he had spread the word that increasing the agility parameter was the best choice, and Spiegel's progress had been completely based on this, but then XeXeeD himself revealed that focusing on agility was an ineffective choice. Kyōji later tries to kill Sinon in the real world. Death Gun (*の*- Desu Gan?) / Shōichi Shinkawa ( - Shinkawa Shōichi) Voiced by: Sōichirō Hoshii[6] / Ryōta Ōsaka[6] (Japanese ed.), Marco Balzarotti / – (ed. Initially, Alice was an apprentice of the sacred arts in Sister Arizaya, and brought lunch to Eugeo and Kirito every day. One day he gets lost on the way and realizes that he has made the wrong way as he approaches the Dark Territory, where the World of Humans ends, when he finds himself facing a fierce fight between knights. Frightened, she tries to hurriedly pull away and falls within the confines of hostile territory, but is promptly rescued by Kirito and Eugeus. Going into the Dark Territory, though unintentionally, Alice breaks a taboo and is therefore destined to be executed by the Knight of Integrity. When he comes looking for Alice, Eugeus is paralyzed by fear, and Kirito has no time to save the girl before she is taken away. Six years later, a ghostly vision of her manifests itself before Kirito's eyes, revealing to him that she is waiting for him in the Cathedral. Eugeus (Yūji?) Voiced by: Nobunaga Shimazaki[12][13] (Japanese ed.), Jacopo Calatroni[3] (ed. Italian) According to Kirito's memoirs, fictitious and instilled in him, Eugeo has been his best friend since childhood in the world of the Underworld, for Alice Zuberger. Eugeo is, in fact, the first person the protagonist encounters after his awakening in the mysterious and gloomy world of the Underworld, and who welcomes him into his village, where he covers the lumberjack profession. He takes possession of the Blue Rose Sword, although he is unable to use it. After spending five days cutting through Gigas, a giant cedar, a party is set up in Rulid Village for the event, during which Eugeus reveals his intentions to become a knight. Gabriel Miller ( , Gaburieru Mirā) Voiced by: Akira Ishida[13] (Japanese ed. ) Gabriel Miller was born in the Pacific Palisades district in the suburb of Los Angeles, California, in March 1998. Known as the Subtlety in Gun Gale Online while on the Alicization Project, and temporarily known as Vector, the dark god and Emperor of the Dark Territory. He is the main antagonist in War of the Underworld of the narrative arc of Alicization. He is technology manager of Glowgen Defense Systems and the son of the company's former president and founder. He played Gun Gale Online (GGO) and won tournaments in the first and fourth editions of bullet of bullets (BoB) on Japanese GGO servers. His father had a hobby of collecting insect samples, and young Gabriel was in the room to see multicolored insects with a magnifying glass. During these observations, Gabriel began to think about what fed these beings. Her father then showed her a video of the mating of prayer mantises in which the female devoured her partner's head during mating, but the insect continued to move despite having no head anymore. From there, he began to think where the insect's soul was. After conducting numerous experiments on insects demolishing various parts of their bodies in secret, he concluded that the insect's soul had spread throughout his body. Gabriel wanted to see or even capture that soul. However, despite his numerous experiments in his secret laboratory, this desire would not come true. Gabriel then began to think about the human soul. Because humans could not live without their heads, he concluded that his soul resided in the brain. She continued her thoughts on the human soul while analyzing her childhood friend, Alicia Klingerman. Gabriel imagined marrying Alicia Klingerman one day to take a look at her soul, but when the global financial crisis of 2008 began, Alicia's family became heavily indebted. Her obsession with the human soul began when she invited Alicia Klingerman to her secret workshop behind the forest in her home. From there, when Gabriel and Alicia hugged each other, he took out the needle that his father used insects, to pierce Alicia's left ear while holding her right ear. After Alicia's death, Gabriel saw a small bright cloud coming out of her forehead and thought what she was seeing was her soul. Since then, he has been obsessed with the human soul. Gabriel showed great interest in FullDive technology created in Japan in his search for anime. He even began studying Japanese and fought japanese players in Gun Gale Online as Subtilizer. He was a legend among GGO players as he was able to win the 1st Bob Tournament with just a knife and a weapon and win the 4th BoB Tournament without carrying weapons on his own, using the Army's Combatative ability to engage with his opponent, steal the player's weapon, and use it to kill his target. He was able to predict the movements of his targets to ambush at close range and kill them before they were even able to use their weapons against him. One day, their company was contacted by the National Security Agency and they were invited to participate in an operation to rob the Ocean Turtle to obtain soul translator technology hidden in secret. Hearing about technology to interact with the human soul and that it had already succeeded in duplicating the soul of a human, Gabriel offered to lead the operation himself.
