Open the Mac App Store, buy and download the app. Golf Card Game is one of our favorite card games and is fun for people who like game Hearts or Spade. We are excited to bring it to you with a beautiful range of themes along with different game modes. The concept of a golf card game is simple and easy to learn. Three or four players will take turns aiming for a score close to zero. You can do this by replacing your high card for a lower card. Depending on the game mode, four or six face-down cards will be issued and the round will continue until all players turn over the cards. Our charming golf theme will involve you while you play. Of course, for traditionalists, we offer classic green velvet as one of the backgrounds. You can choose from other themes lovingly drawn by our art team. We want our game to relax you, so we've confirmed that our professionally created soundscape will end your playing experience. Our controls are easy, using a tap-based system and to get the cards where you need to go them. Naturally, you can adjust the length of the full game because we know that sometimes you just want a simple game. Features:- Play 3 player games or 4 player games against your computer -3, 6, or 9 game rounds and adjust the length of the game to match what suits you - between 4 card games or 6 card games Choose for various challenges.- An array of beautifully drawn backgrounds that start with fairways and go far beyond! I hope to try golf card games today and discover new favorite games. November 3, 2020 Version 1.0.14 - Various minor bug fixes and improvements. - Improved compatibility with the latest version of iOS I just learned how to play this game from a friend a few months ago, and soon I was hooked. I feel like a lot of people are not aware of this game, so I was more pleased to be able to play this on my phone instead of waiting to play with my friends now. The only complaint I have is that THE AI/computer seems a little hard to beat easily. I feel like they're exchanging really good cards for bad stuff, so it's too easy for me to win. Other than that, I'm very happy with this app! Enough to buy it! (And I don't buy games) but computer is too easy to beat. That is, I like to win, but I like to win when it's fair. For example, the last card drawn for another player will never be taken even if it is a better card. Glitch! And they go out too early or choose a card and make silly moves all around when it's clear that they should have turned over one. Oh well! Another thing I change is pop around yourself or the last turn. They are a little annoying, butThe last round is useful, but may appear faster or without pop-ups. You don't need any round numbers to pop up first. Feedback from avid !!!:) This game is very addicting! Let's start the fun! Note: I hope you have statistics on the number of games you've lost, including play, win, four cards, and six cards. There is a bug where the computer does not choose the best card (e.g., in the last round, the computer will hold 7 cards after drawing 2 and 2 will have given the computer a low score and win) open Mac App Store to buy and download the Developer Website app Privacy Policy app. A great game that everyone needs to download it. A great app. This golf game has just the right amount of strategy and luck to keep me interested. The full game takes about 10 minutes, so it's a great way to spend time. You'll love this one!!! This is a pretty fun game to play! Card game for all ages. Whether you are a 4-year-old girl or an 80-year-old man, this game is easy to learn. But it involves some decisions to challenge the most competitive players. You can play against three other friends via computer or wifi or bluetooth. Golf Game is a simple but fun 4 card game where the lowest score earns holes. Earn as few points as possible in each hole. The lowest score for each hole will earn holes and points. The player who earns the most points after golfcardgame@spiralinnovations 9 holes wins the game. 2014 Version 1.4.1 This app has been updated by Apple to use the latest Apple signature certificate. We also welcome all feedback and recommendations. If the game no longer works for the iPhone X golfcardgame@spiralinnovations send them to 3.com. The view is super bad and you can't see the card. Also. You need to have the option to get a negative point. Like golf. 3 Kings will be -10 4-20 of them. And so on. You should be able to choose what you want to see. I got this game/app maybe four years ago that needs a major upgrade. I plunder it! After that, weJust don't shuffle the app. 🙏🙏 real thanks app. The best part is that you don't need the internet when you fly around to play. If this game was free, I wouldn't write this, but I think it would be really nice to turn off the sound of the card and I was waiting for someone to make this game for the iPad and iPhone. A great game that everyone needs to download it. A great app. This golf game has just the right amount of strategy and luck to keep me interested.
