Goku has settled down and works as a farmer to support his family. His family and friends live a quiet life. However, a new threat appears in the form of a God of Destruction named Beerus, considered the most terrifying and second most powerful creature in Space Seven. After waking up from decades of nano, Beerus to his angelic assistant and teacher Whis, that zeal is a battle of the legendary warrior who saw him in the prophecy known as Super Saiyan God ((with him) to lose. [4] In order to protect the Earth, Goku transforms into Super Saiyan God to fight Beerus using the power of five Super Saiyans, which includes Gohan, Goten, Trunks, and a child named Pan in Videl's womb. Goku shows tremendous power, which is enough to impress Beerus. Goku's efforts, despite his loss, are enough to make him feel good enough to spare the planet. While Goku and Vegeta leave with Beerus and Whis to train for a year, the rest of Frieze's army arrived on Earth in search of dragon eggs to revive Frieze. A few months after returning to life and training Friez gathers his forces and returns to avenge Saiyan. Despite completing a new makeover called Golden Frieza, it is defeated by Goku and Vegeta, who have both mastered the transformation of Super Saiyan Blue. Frieze refuses to accept defeat by a suicide attack blowing up The Earth. However, because of Whis's ability to turn the time around, Goku is capable of killing Frieza. Champa, Beerus's brother and God of the destruction of space six, convinces Beerus that the tournament will be among the best fighters from their universes. Whis reveals that there are 12 universes. The universe, from which Goku and his friends are, is called Space Seven. Champa also reveals the prize for their tournament will be Super Dragon Balls, which are planet-size Dragon balls whose ability to allocate desires are virtually limitless. Champa plans to replace The Earth of the Universe Six, which was previously abandoned by nuclear war, with Universe Seven's for their cuisine. Goku and his friends join the tournament. Every game in the tournament shows different surprises and abilities. The tournament reaches its peak in the duel between Goku and Hit. After an unsuccessful attempt to get the rules to face Hit at full strength, Goku takes away the game. But Hit gives up the final fight because Goku inspired him to do the same thing. The tournament ends with a Victory of the Universe Seven. Beerus secretly wants the Super DragonBalls to rebuild the Sixth Earth Universe. Goku later meets and befriends Grand Zenō, which is the Omni-King of all universes. Goku promises to bring his friend to play with him. Later, the future trunks re-fit and bring bad news about the new and powerful enemy who stole Goku's body, known as Goku Black. Goku and others eventually discover that Goku Black is actually the supreme kai apprentice from The Universe Ten named Zamasu, who used Super Dragon balls to steal Goku's body from another timeline as part of his plan to acquire immortality and wipe out any non-alone creature. [5] In the end, after a long bloody battle, Zamasu tries to kill the heroes by combining it with the very structure of reality, but it is erased from existence along with the entire future timeline of Future Grand Zenō, which accompanies Goku back to the current timeline. Goku fulfills his promise to present the Grand Zenō by presenting it to his future self. Whis into the future to prevent Zamasu's rise to power. Some time after leaving Future Trunks on an alternate timeline, Present Grand Zenō and Future Grand Zenō have a new tournament called The Power Tournament (e-mail: Chikara no Taikai). At Goku's proposal, there is a team of fighters from eight of the 12 universities at the multi-tournament tournament. But it becomes a battle for survival when both kings declare that the universes defeated in the tournament will be wiped out. [6] Goku, Vegeta, Gohan, Krillin, Android 17, Android 18, Piccolo, Tien, Master Roshi and the temporarily revived Frieze join the tournament as representatives of Universe Seven to protect him. The Universe Seven team must fight a number of mighty warriors from other universes, such as Officer 11. During the fight Goku briefly comes up with a new form of God, known as Ultra Instinct (č勝 e, Migatte no Gokui), which increases its agility and power. Ultra Instinct allows Goku simultaneous attack and evasiveness without the need to think of the latter. The tournament ends with Goku and Frieza picking up Jiren with them, leaving Android 17 as the last remaining fighter and winner of the power tournament. He is rewarded with one wish from the Super Dragon Balls, which he uses to restore all erased universes. It is revealed that the present Grand Zenō and the Future Grand Zenō expected the restoration of the universe. If desire had been used for selfish purposes, both kings would have erased all existence out of anger. For his quest for the tournament of power, Frieza is permanently reviving and rebuilding his army. Goku and his friends are returning to everyday life on Earth. While sparring, Goku reveals to Vegeta that it is unable to activate Ultra Instinct at will. Goku and Vegeta are bound to become stronger and beyond their limits. After the power tournament, frieze and his henchmen came alive once more in search of the Dragon's Bullets. During the search for Friez, two exiled Saiyanska survivors with an incredibly high power named Broly and his father Paragus, the latter seeking revenge for Vegeti for his father, who drove Broly away from the destruction of Saiyan's home world. When Broly defeats both Goku and Vegeta in his battles, Goku suggests Vgeti to get to Gogeta. But before Goget kills Broly, he'll be found on the planet Frieze by Frieze's Henchmen Cheelai and Lemo. Frieze is fleeing Earth and vows to retaliate. [a] Goku, Vegeta and Majin Buu later turn to the Galactic Patrol, who enter their aid in recapturing the dangerous fugitive Moro, who was captured for 10 million years after using his powers to gain the life force of countless planets. Their search for Moro leads them to New Namek, They fail to stop his plan to use the DragonBalls of the Namesays to restore his magical abilities and release all criminals in galactic patrol custody. Moro and the escaped convicts continue their murderous rampage through space, and Goku and Vegeta are preparing for an incoming repar against him. While Goku is looking for a way to master Ultra Instinct, Vegeta is going to Planet Yardrat, where Goku learned the skills of Instant Transmission. After two months, Moro leads his army of convicts to Earth when the Z-Fighters and galactic patrol make a position until Goku and Vegeta arrive. Despite Moro's fuss with one of his henchmen and nearly killed the Z-Borce, Goku and Vegeta eventually return and turn the tables on him, and with Goku he reveals that he can now access ultra instincts by his will and immediately defeat Moro on the brink of death. But in his last attempt to prevent his previous destruction, Moro is caught by the Earth itself and says he will self-destruct and take the entire Northern Galaxy with him if Goku tries to kill him. In the end, after absorbing the spirit bomb, imbued with the energy of the Z-fighters and their closest confidants, Moro finds a weak point and destroys it, doomsing the evil wizard and spares the Earth from destruction. [114] Richard Eisenbeis of Kotaku praised the series' title sequence, saying, My high school self is so happy now, guys. [115] Jamieson Cox of The Verge also praised the title sequence and said that Dragon Ball Super's intro will have to ask for her North American release. Cox was also surprised that the series, given how popular the franchise is, was not launched internationally at the same time. He called it a move that would not be unprecedented, setting sailor moon crystal as an example. [116] The original animation for the fifth episode (left) was widely criticised by viewers and re-recorded for blu-ray and DVD edition (right). However, the fifth episode received heavy criticism from Japanese and Western audiences due to the poor animation style compared to the previous four episodes. These problems continued in episode 24 and a few more episodes. Dragon Ball Kai and producer F for the resurrection of Noriro Hayashida thought the criticism was overinflated. He said people are criticising the whole series based on some bad sequences made by new animators. He explained the quality of the anime drop. that it considers that the result of cutting the time of the studios for post-production and does not allow for checks on the finished product. [117] However, Champa Arc was praised for improving animation. Episode 39 was captured by improved animation and a war on combat sequences. Attack Fanboy reported that Dragon Ball Super episode 39 may be the best installment of the series to date. Goku and Hit's fight begins explosively. [121] The Future Trunks Arc also ate a positive response from fans and critics. IGN's Shawn Saris is episode 66, below: Episode 66 of the super dragon ball has some missed steps, but ultimately leads to a great final battle with Zamasu. [122] The Anime News Network criticized poor animation and the narrative, which they cited as a hairless soap opera based on the handshake of the cast. [123] The final arc, The Arc of The Survival of the Universe, received a much more positive reception than the previous arches. Several episodes, such as 109/110 and 116, were listed as some of the best episodes of Super; [124] Despite this praise, Jay Gibbs of StripaVerse criticized the series for its mismatch of the narrative, as he heard the explanation in the episode, and then that the very explanation was dissuading a few seconds later. [126] Episodes 130 and 131 were broadcast live in various cities across Latin American countries, including Mexico, El Salvador, Bolivia, Ecuador and Nicaragua for free at public venues. [127] Public screen announcements attracted a large audience, including stadiums in Mexico and other Latin American countries[129] each recording drawing audiences that counted in the thousands to tens of thousands. Although the reaction from fans was positive, fans criticised fans for not finding the mild blood and gore that was present in the forerunner of Dragon Ball Z. [131] Dragon Ball Super received a major complaint from the Organization for Ethics and Improvement of Programs, as part of master Roshi's story of multiple sexual assaults on the female character Yurin.
