Everyone wants to have information that interests them at their fingertips, instantly and wherever they are. TV, as an information and entertainment industry, will not escape this trend and now no longer needs the equipment mentioned, nor is it limited to other channels; TV now, it's all on the Internet and accompanies you to the whole place and it's called IPTV. In this article we will provide you with the best Portuguese and Brazilian IPTV M3U Lists updated in November 2020 and we will tell you how to install them ... For those who love watching shows, movies, sports, TV channels or even listening to music using IPTV, .m3u playlists are incredibly practical and easy to use features as well as dangerous. Since they are created and maintained by the community, there is a constant stream of new playlists and channels for all tastes. However it also means that sometimes we barely realize what are the best and most popular IPTV lists of m3u Brasileiras and Portuguese at the moment. IMPORTANT Internet is no longer as free as it used to be. Providers increasingly put obstacles to free navigation, as well as spying on everything we do. Geoblocking of applications and websites, censorship, violation of privacy are unfortunately becoming increasingly common. By using the IPTV list, you may be unauthorized accessing content that is subject to copyright and streaming rights; this can cause problems with justice! That's why ... But how does VPN work? A VPN is an intermediary between your provider (ISP) and your Internet activity. When you connect to a VPN, the Internet Protocol Address (IP) becomes the VPN IP protocol, and your ISP becomes just one way to connect to the VPN. IP works as if it were your identity on the Internet; your activity is not directly associated with you, but with a VPN. This prevents the blockade and that all the snooping that many providers do nowadays. Although there are many VPN services out there, not all are effective and reliable. If some restrictions its streams, others do not have servers scattered around the world to be able to bypass geo-blocking, and censorship; others – especially the free ones – happily collect their users' access and navigation protocols and later sell them to the most omittable entities. For all this, it is necessary to choose a good VPN! To make sure that the privacy, security, and quality of your connection are not compromised, we recommend CyberGhost. Using the best encryption technologies, excellent geographical distribution of their servers and a strict zero protocol policy, this is currently considered the best VPN in the world; Actually when using CyberGhost, it's like you're not surfing the internet. All this, with the best value for money and a guarantee of money if you are not satisfied! Best plan: \$12.99 \$1.99/month for a 12-month plan. 45-day money back guarantee (This promotion ends soon!) To help you enjoy all security, privacy and quality, we are negotiating with CyberGhost, an exclusive discount for our readers. Now you can watch your streams without interruption and without risk before getting on the wrong side of the law. Get now a 60% discount! Note that alternatively, using m3u lists, you can use IPTV applications that do not require lists: Currently there are many addons that keep lists updated automatically; don't require you to insert new lists or constant updates into existing lists. So our advice is that they install addons like TvTap TVOne 111 or Zeus that already do this job for you! If you have an Android device, you can install the live TV app and you don't need to install any list. The application we recommend is Live NetTV; gives you access to many hundreds of channels from around the world online, and is free to install and use! But if you prefer to continue using IPTV lists... Best Portuguese and Brazilian m3u Lists 2020 Now that you have made sure that your browsing is completely anonymous, let's get on with business: Best IPTV Lists for M3u Portuguesas and Brasileiras 2020! On 28 August 2020, the following lists were updated and operational: IPTV Brasil Canais Filmes Esportes IPTV Portugal/Internacional Canais Humor Note that: The lists listed here were collected from information on the Internet solely for illustrative purposes. We are not responsible for your maintaining those lists; volatile, they can already work by the time you set them up. To verify the existence of lists, copy and paste the address into your browser, then make sure the address has been opened. How to watch IPTV on your device We have for you the best guides who want to make the most of what IPTV has to offer. Here are short tutorials so you can watch IPTV on your device, but don't forget to visit our full tutorials on each topic! How to watch IPTV lists m3u on smartphone It is very easy to install your favorite Portuguese and Brazilian IPTV lists and watch IPTV on your mobile/smartphone wherever you are! First, download an app called IPTV to your smartphone. This is usually the first result to appear on Google PlayStore. Then install and open the application. The + symbol appears in the upper-right corner of the Start screen. Tap it, and then tap Add URL. Now enter exactly the IPTV list URL you previously selected in the first box. Then tap OK. Wait for the list to load and ready! All channels, movies and series will be available on your smartphone! Finally, if you want to switch from one channel to another, it's very simple. Just tap the icon in the upper-left corner, and then tap More. You will be taken to the Start screen, where you can select the list you want to play. How to install IPTV lists m3u in Kodi In your Kodi, you can install updated Portuguese and Brazilian IPTV M3U Lists, according to two processes: #1 - Install IPTV lists individually You can add IPTV .m3u lists individually in Kodi as follows: First, download the .m3u file from the list and save it to an easily accessible location. Alternatively, you can also use a URL, such as the lists we display above. Then, in the general panel, go to Add-ons, and then go to My Add-ons. Then select PVR clients. Now, under this option, select PVR IPTV Simple Client. On the PVR IPTV Simple Client screen, select Configure. On the center screen, you must select a list location, choose from: Local Path - the location of the .m3u file you downloaded on your device or Remote Path - Internet address, ending with .m3u. Finally, select the method and file and confirm. Wait for confirmation that the channels have been loaded. You receive a message that you need to restart Kodi. Then, after restarting, you will be able to watch your channels on Kodi by selecting the TV. If the channel is running in the background, use the rewind button until only the channel is recovered. If you would like to see this in more detail, click here. #2 - Install multiple IPTV lists with Playlist Loader Playlist Loader's addon for Kodi specifically for those who would like to have multiple .m3u lists active at the same time without having to delete one list to add another. If you haven't installed it yet, visit the Playlist Setup Guide. Let's then see how to install different IPTV Lists m3u Portuguese and Brazilian using this addon from Kodi: First, from the add-ons screen, open Playlist Loader. Then enter the name selected for your new list. Now select the location type of the .m3u file. The local list is a .m3u file that you have already downloaded to your device, Remote List is an Internet address as above. Then you can choose the logo and source of the channel logo, but these two steps are purely optional and you can ignore them if you want. Finally, the list is ready and will be on the start screen of the loader. If you want, you can select a list and add it to your favorites so they're always easily accessible. For more information, see the Playlist Loader tutorial. Conclusion In this article on IPTV lists m3u Portuguesas and Brasileiras, we present the most comprehensive lists by November 2020. You've also learned how to install the IPTV app on your smartphone and how to install IPTV lists in kodi — individually or using a playlist loader to collect multiple lists in one place. We hope this tutorial on IPTV lists of m3u Portuguesas and Brasileiras, updated in November 2020, has helped you watch online TV, everywhere, for free. If so, rate using the stars below.
