The app is a powerful solution for home screen alternatives so that your mobile device will carry its own style. For Nova Launcher, information is essential. It will be for users who like perfection and are ready to work out. It won't take you a long time to find out. And to keep up with the world's modern themes, take action now! StoryExposure's world of art has increased humanity's demand to make them. The first to see is what they did to mobile phones, one of the top personal belongings. Launchers have become more and more popular as people want to change their traditional look. People are no longer happy with the usual time icons, not that they want to change items into unique ones. Nova Launcher helps out. With its collection and improved tools, it promotes changing goods by trying new manipulations. In addition, it leaves users with a place to touch it. No matter how trendy the theme is, it can't beat personal ideas. Features of Nova LauncherIt's time to explore Nova Launcher using what features it has. Some are young, but some have already appeared somewhere else. Updating featured themesNova Launcher keeps the most popular themes and widgets in the design of Android hands. It is better to apply them to other operating systems. So, feel free to choose. The collection never stops updating, so it might have plenty to choose from. There are many styles to choose from, such as an overhaul vibe or a cleaning look. It is allowed to resize and recolor new symbols. Choose your theme and show your style! IconsIcon Gallery appears even more important. You know there are countless app icons on the Google Play Store and counting. Nova Launcher can access all of these themes and allow you to have a spacious space. It would have thousands of icons to consider, but it's a boost be unique. Icons on your phone can be moved and presented in a new way with Nova Launcher. Merge them or prioritize in your presentation, it will be up to you. Night modeYou couldn't get enough of it and maybe stay up night to explore this vibrant world. Don't worry much about tiring eyes later in the morning while Nova Launcher takes care of enough to offer a night mode. The brightness of the light will ease the contrast with space, allowing your vision to get used to the darkness gradually. Dark themeTumtums theme is famous on facebook for a while. This feature improves battery life and balances the contrast of brightness. Now you can find it in Nova Launcher. This can dim the screen of the entire phone system when you're out in advance or forever. It's free to try this feature! DrawerY to the app drawer and learn more customized gestures. This small drawer offers items from simplicity to sophistication. Do whatever you need to make yourself comfortable using phones. Here are some special improvements. You'll merge apps. With a little retousing, you can combine more than two apps into one icon, make your screen more organized. Then decide what gestures you want to open in each app, such as tap, swipe up, or down. We regularly use many apps that we place them all on the main screen. Now it's time to clean up a little. You can swipe for quick access. To greatly search devices, manipulating one hand seems complicated. Reaching the wrong apps, as it sounds often. The worse situation is dropping the phone while we try too hard. Say goodbye to this event when you can swipe in the middle of the screen today and get what you want. For example, swipe down anywhere on the screen to open Google.Positioning The app gives you the freedom to organize app layouts. Grid cells come to help so users can calculate the exact position and where to put the app. RestorationA lls or designs that you set up for this phone can be transferred to each other as long as your account. This feature is still free. Create and use for life. Smoothness Transition to Nova Launcher provides a smooth and fast effect.
