Before the interviews, try to find smart questions that you are going to ask for the potential host (do a search on the team to find nice and deep questions to impress your host). Prepare well your resume. You are very likely not going to get algorithm/data structure questions like in the first round. It's going to be just some friendly chat if you are lucky. If your potential team is working on something like machine learning, expect that they are going to ask you questions about machine learning, courses related to machine learning, expect that they are going to ask you questions about machine learning, courses related to machine learning, courses related to machine learning you have and relevant experience (projects, internship).
