It resembles a gear and is located to the right of the window above top-site clue. Click Reset default settings. Click Reset. Your Launch Option To Set Certain Sites To Open Every Time You Launch Edge? Let us know in the comments section! We might earn a commission to purchase using our links. learn more. Source: Windows Central Updates Dev and Canada versions of Microsoft Edge have a new handy collection feature. You can now right-click a tab and select the option to add all tabs to a new collection. The feature makes it easy to add an entire project worth of tabs to a collection. Microsoft's candidate Poon pointed out the new feature on Twitter earlier today. Collection is a useful feature that's making its way back onTo Microsoft Edge. It's not in the generally available version of the new Edge but is in the Dev and Canary versions. You can add drag images, websites, and other content to a collection. For example, if you are searching for a paper, you might have the relevant images, text, and webpages in a collection. That way, you don't need to mark the content, but you can still easily access it. Before updated to the Dev and Canary versions of Edge, you had to add pages Now you can just add them in bulk, which is faster. Edge Dev's, Canary, and Beta channels are available to download now to the Edge Insider site. The release version is available to download as well at microsoft Edge's official site. Microsoft Edge, like any other larger web browser on the market, has the ability to save your tab session when you close the browser. You may have Edge open all the tabs from your latest browsing session whenever you start it. Open tabs from recent Navigation Pane in Microsoft Edge Starter, click the More icon (with three dots), and click Settings. In the Open Microsoft Edge and drop-down boxes, select Previous page of this read! From now on, Edge will open the last site you visited at every start. Regardless of which option you choose in the drop-down box, Microsoft Edge when locked down, save the session history by default in the Recovery Store folder here. %LocalAppData%\Package\Microsoft.MicrosoftEdge_8wekyb3d8bbwe\AC\MicrosoftEdge\Users\Default\Recovery\Active Select Pages Prior to the drop-down option to make Edge use the latest saved recovery information and open that particular set of tabs or browsing sessions at startup. The Recovery folder also comes to Play when the browser crashes and needs to restore the last visited pages after recovery.
