Make sure the touch stingers, brake and seatbelt work properly, the carrying handle is attached properly and that the bass or seat is properly attached to the chassis. Make sure the Bugaboo camelion is damaged. You should make sure that any damaged or worn parts are repaired immediately (see warning section). PartsFor replacement, use only genuine Bugaboo parts or parts that have been approved by Bugaboo North America Inc. To prevent mold, do not fold bugaboo camelions and accessories while wet or store them in a wet place. cleaning The cleaning wheels, take them out of your holders and clean them with a damp cloth, warm water and a mild detergent, then dry well and lubricate with silicone spray. NEVER lubricate wheel bearings. Important, some bugaboo Cameleon components can become discolored if left in the sun. Wash gently. Before washing ALWAYS remove the frame, fittings and plastic foam parts. Note When washing the fabric, remind the following: - Maximum temperature 30 °C / 85 °F (cold washing) - do not use bleach - do not dry - do not iron - do not dry The widow with eoten can be washed at 60°C/140°F (hot washing). At this temperature, the inaclay will become absolutely clean. Aerovanic fangs are placed on top of a thicker foam mattress and can be taken by removing the mattress cover. After washing the fabrics, make sure that all parts are replaced in the original positions. Place the alternation on top of the foam mattress. Do not use a mattress without aeotyr. Z54010 - UG_C_rv00.indb 37 12/6/07 12:52:46 Answer 3 c9. Travel and storage you can easily store bugaboo cameleon, or take it with you in the trunk of your car.step 1. destroying the seat or bassinettRemove seat or bassinett with the chassis. Remove the carrying handle. Set the handle to the lowest position. Remove the seat airbag.b. Fold the frame with supports against the .c. Press the seat flat between the frame. bassinett folding. Remove 2 plastic filelets from the pockets in the bassinth fabric. e. Fold frame supports against frame.f. Click on the bassinett exactly between the frame. step 2: chassis and wheels. Put the Bugaboo Cameleon chassis in position 4 wheels.b. Place the handle over the large wheels. c Pull the two white trigger handles to you, and when pulling the handle down, place it on the floor. Z54010 - UG_C_rv00.indb 35 12/6/07 12:52:42 Page 4abcstep 2 adjacent to the rain cover above the sewn frame of the solar canopyIf you remove the fabric from the solar canopy and place the rain cover over the frame, the child will have a full view outside the stroller. a Pull the sun canopy apart. Remove the frame from the canopy clamps and remove the .b place the clamps on the frame. Insert the frame back into the canopy clip. c Stretch the frame apart.d. Place the rain cover wide, black edge at the end of the foot. e. Pull the rain cover over the sun's canopy frame first.f. Make sure that the stitched seams of rain cover are aligned with the frame of the solar canopy.g. Slide the rain cover frame holes over the protruding pins on the side of the frame.h. Finally, pull a wide, black edge over the bottom edge of the frame foot. Important Make sure that the stitched seams of rain cover are aligned with the frame of the solar canopy. Z54010 - UG_C_rv00.indb 33 12/6/07 12:52:39Page 5 dfg'click'click'step 2, matching the individual solar canopy. Seat bassinett or seat on the chassis.b. Fit the solar canopy to the round side of the .c. Pull the solar canopy over the end of the frame.d Press 2 canopy clamps onto the frame at a point where there is no rubber.e Roll the top of the clamp onto the aluminum frame and then secure the bottom of the clamp. f Attach the elastic bands to the front of the canopy clamps.g Remove the solar canopy. Important You can also use a sun canopy to protect your child from windWARNINGS • Children have very sensitive skin. Never put your child in a Bugaboo camelion in the sunlight, don't □ canopy of sunshine. Z54010 - UG_C_rv00.indb 31 12/6/07 12:52:32 Page 6ad8. weather and wind protectionStandard version bugaboo Cameleon comes with a solar canopy, rain cover and mosquito net, so you can protect your child from the sun, wind and rain, as well as insects. The necessary steps to make Bugaboo Cameleon ready to use in good or bad weather are the same for bassinett and sitting. Important The solar canopy, rain cover and mosquito net can be used in conjunction with a seat up to 53 cm/20.9 inches long of the child's upper body (measured from the bottom of the child's rear to the top of the head). The selected solar canopy consists of 2 canopy clamps, 2 removable frames and taking into account the fabric.Step 1 prepare a sewn solar canopy for use, pull the frames from the canopy clamps. B. Put the solar canopy down with the doniz logo. c. Push the frames through the holes in the sun canopy fabric.d Wear the canopy clamps again Frames. Note Hooks on canopy clamps always point to the back of the solar canopy. When putting the canopy clamps back on the frame, make sure that the wire in the canopy is on top. Z54010 - UG_C_rv00.indb 30 12/6/07 12:52:29Ocrease cover 7 BC Rain cover stretched over the solar canopy or above the solar canopy frame. The black edge of the rain cover is attached to the lower end of the frame. Step 1 fitting rain cover over an individual solar canopy. Fit the sun canopy to the frame and fold it.b Place the rain cover wide black at the end of the foot.c Pull the rain cover over the sun canopy first.d. Make sure that the stitched seams of rain cover aligned with the frame of the solar canopy.e Slide the holes of the rain cover frame over the protruding pins on the side of the frame f Finally, pull the wide, black edge over the bottom edge of the frame. Important Make sure that the stitched seams of rain cover are aligned with the frame of the solar canopy. Z54010 - UG_C_rv00.indb 32 12/6/07 12:52:36 Page 8 overturning the air vent in the rain coverIt is the air vent in front of the rain cover to ensure proper ventilation.a. Press the touch mount window correctly. The space created between the window and the rain cover is an air hole. WARNING• To prevent the child from overheating, do not leave it under rain cover unless it rains. • Ensure proper ventilation by pressing the touch mountings of the air vent together properly.The mosquito net retains the insects.step 1 adjacent to the mosquito net. Fit the solar canopy, with or without its fabric, to a bassinett or seat. b Use the washing instructions at the end of the head to pull the mosquito net over the sun canopy.c. Make sure that the sides of the grid and the bassinett or seat fit snugly. Z54010 - UG_C_rv00.indb 34 12/6/07 12:52:41 Page 9 dd Grasp the central mine on which the frame carriers are located and lift everything up. The chassis with wheels and handle must now fall against each other. e. The Bugaboo camelion can now be placed in storage or transported by car. You can also store Bugaboo Cameleon without its wheels, or hang Bugaboo Cameleon by the handle. Z54010 - UG_C_rv00.indb 36 12/6/07 12:52:44 P.M.
