This school is ranked below average as a school compared to other schools in California. Students here are making an academic improvement below half a year after year, ... Plus this school has below-average results in how well it's serving underprivileged students, and students perform below average on state tests. Students at this school are making less academic progress from grade to grade compared to students in other schools in the state. Low progress with low test scores means students are starting at a low point and increasingly behind their peers at other schools in the state. Parent Tip Test scores at this school fall below the state average. This suggests that most students at this school may not be performing at grade level. Parenting tip Do you notice anything missing or confusing? Disadvantaged equity students at this school may be lagging far behind other students in the state, and this school can have large achievement gaps. Parent Tip Student results by percentile

Sent by a Parent This is a great school, with extremely dedicated staff. My son loved this school more than any school he had attended before. One of the things I love is that many of the teachers keep websites up to date, detailing tasks, tasks, events, etc. His professors of Language Arts and Mathematics, Ms. Bishop and Ms. Maurer, were especially enjoyable, enthusiastic and competent. Congratulations to high school for doing a great job! N/A

Sent by others I love the weather when I walk into the office. The students seem happy and excited to be there. The office staff always welcomes me with warm smiley faces, as they do to entering students. N/A
