James Book Review 50 Shades of Grey This book is classified as erotic fiction, and fiction is something it is completely erotic, its own and low, it is a book that keeps the reader in a way that we are in the mood for more. Gripping, sensual, I found very well written and s3xy. This is a reading suitable for people who want to give up their lives, for those who want to live new experiences – I couldn't stop reading up to three editions on display, impressive! It was one of the best things I've done in the last few months. Despite many criticisms, it made me interested to know why? The book is just a roller coaster that involves love, s3xo, betrayal, excitement, where I asked myself several times the same question: Do I read it even? It makes me want to meet Christian Grey, as he imitates the real-life innocent Anastasia Steele who learns about s3xo in the most submissive way possible, and the worst, ends up enjoying some new situations in her life. It's worth reading, no doubt! Review: Georgia Rodrigues Da Silva Age: 41 Years of Synopsis When Ana and Christian meet, soon to feel a strong attraction to each other.
