Durr Burger head- Middle of D3 Near Pleasant Park, on the mountain that has few crevices. Dinosaur - West in the middle 19(19) Near Paradise Palms, following the road from paradise to the gas station , on the middle Stonehead Statue - Almost in the center of the Northeast C6 of Frozen Lake, this is a new place of swum of crack, as the community content of season 10 (season x) is available under CC-BY-SA, unless otherwise noted. Fortnite Credit: Epic Games It's not enough just to complete more challenges: now we have to complete Prestige challenges. Prestige challenges are a new level of difficulty for Season X in Fortnite that you can complete after doing a regular mission, adding a new twist on top of one of the challenges you've already done. It can be difficult: location-based challenges have always been fun and easy, but the new requirements can make them really difficult. They are far from impossible, however, they only require a little planning. One of the first for the Road Trip Mission asks you to visit durr burger's head, the StoneHead Statue and an all-in-one Dinosaur. They are scattered all over the map, but this is surprisingly doable. Here's the best way to do this. Here's what's going to make this a lot easier. Unless the battle bus is over it and the general area is full of people trying to get you by shotgun, start at Durr Burger Head by Pleasant Park. The for this is simple: there is a crack that generates nearby, so you can get out of there in an instant. So take some materials if you need them, jump into the crevice and move. If you get out your glider and you you a straight line, you can make it almost all the way up to the Stone Head Statue by Neo Inclined. Just make a beeline on this one and you should be there in no time. Credit for Fortnite: Epic Games Is when things get a little more complicated. The Dinosaur is a long way from the Stonehead Statue all the way in the Desert Biome. Fortunately, this is the snow biome, and so there are planks around. What you want is near an expedition outpost west of Shifty Shafts. So go there on foot, gran the Driftboard and enjoy a considerable increase in speed. Once you have the driftboard, it shouldn't be that hard to cover that huge distance. The most important thing will be to avoid getting killed, so try to avoid the center of the map. Hang a wide route through Happy Hamlet and Lucky Landing, which tend to be slightly less popular locations, particularly a bit in a match. You may need to adjust this based on the storm circle, however: if things are fully located in Happy Hamlet, be aware that there will be more activity in that area. If you see some enemies, book it from there on your driftboard. So, in conclusion: Start with Durr Burger Head. Use the slit to fly up to the stone head statue. Take the drift board through the expedition outpost. Choose the least active route for dinosaurs you can, adapting to the fly if you need to. Here's what it looks like: Credit for Fortnite: Epic Games that should get you there without problems. It's not as easy as just visiting things, but that's what makes it fun: it's still a lot easier than Victory Royale. Come back later. Epic Games kicked off for season 10 of Fortnite, and here are the locations for the statue's head, dinosaur and Durr Burger's head. Fortnite season 10 has begun, and one of the first challenges battle royale participants must complete is embarking on a journey for a dinosaur, a stone-headed statue, and a Durr Burger head. While players can now enjoy the LTM Skystation Showdown World Cup when they don't complain about dominated mechs, this trip is a deceptively difficult introduction to the newest season for which you can find the locations below. In what is potentially a much-needed breather for people like me who were getting a little tired of the weekly challenges of Fortnite, Epic Games has announced that the challenges for season 10 will work a little differently. Instead of new challenges being dispensed with and served on a tray each week, season 10 challenges will be grouped into uniquely themed sets. And the first themed set is called Road Trip. SEE ALSO: Best PS4 games, Xbox One, Switch August 2019: Blair Witch, Man Of Medan and more! The first thematic set Fortnite is called road trip, and one of its tasks requires players to momentarily exchange the killing for To complete the mission, you must visit a drifting painted durr burger head, a dinosaur and a stone head statue. Although this sound nice and easy, the catch is that they should all be visited in a single match. And to make matters worse, they're all far away. First you'll want to locate durr burger's head on a hill east of Pleasant Park, then you'll want to move on to the stone head statue near the frozen lake by Neo Tilted/Polar Peak. Unfortunately, once you've visited the stone head statue, you then have a tiring journey that could very well feel like traveling the world in 80 days. For you to see, the stone head statue is in winterfell's snowy biome, while the dinosaur is in the hot resort of Royal Harbor – that is, in Paradise Palms. You can find marks for each of the three locations below: In other video game news, here's the swing of the changes for season 2 of Clash Royale. Below is a list of all the awards from the Fortnite Season 10 travel mission challenge: 10 Battle Stars (1 Challenge) 10 Battle Stars (2 Challenges) 10 Battle Stars (3 Challenges) 5,000 XP (4 Challenges) 10 Battle Stars (5 Challenges) 10 Battle Stars (6 Challenges) Atmosphere Back (7 Challenges) 1,000 XP (1 Challenge Prestige) 1,000 XP (2 Prestige Challenges) 1,000 XP (3 Prestige Challenges) Drift Spray (4 Prestige Challenges) 1,000 XP (5 Prestige Challenges) 1,000 XP (6 Prestige Challenges) Catalyst (Riftstorm Style) (7 Prestige Challenges)Below are all the challenges of fortnite Season 10 Road Travel Mission. Clicking on a specific Mission will take you to a detailed description of how to complete it. To complete this challenge, players will need to visit a Drift-Painted Durr Burger Head, a Dinosaur, and a Stonehead Statue. Visiting various fortnite sites has become a basic challenge, so you should be quite familiar with what to do. You'll need to visit the three locations listed in the challenge to get it off your list. For this version of the challenge, you don't need to visit all these locations in a single game. To help you, we've marked each of these locations on the Fortnite Season 10 map, so they'll be easy to find. You can find the location of Durr Burger Head (red), Dinosaur (yellow) and Stonehead Statue (blue) on the map above. To complete this challenge, players will need to deal 200 damage to opponents while driving a vehicle. This challenge will probably be one of the toughest as it requires a teammate to complete. You will need to pick up a friend, or a random player, and work together to complete this challenge. It seems that the best way to complete this challenge on Team Rumble. There are many enemies out there and you are able to resurface. It is also worth noting that the challenge could be completed by yourself by trampling opponents. Opponents. Complete this challenge, players will need to destroy ten stop signals while wearing the Catalyst outfit. The Catalyst team is unlockable in Battle Pass Level 1 and will be given to you instantly when you purchase the Season 10 Battle Pass. The challenge itself should be pretty simple, because all you have to do is destroy some stop signals. You can find plenty of them Pleasant Park, and then a couple in Salty Springs, Mega Mall, and Paradise Palms.You don't need to complete this challenge in a single match. To complete this challenge, players will need to ride a zipline in three different matches. This one's pretty simple. Zipline can be found all over the world from Fortnite. When you see one, just jump on it and go for a walk! You will need to do this over three games to complete this challenge. To complete this challenge, players will need to search for three Chests in different Named Locations. This is another Travel Mission Challenge that should be a piece of cake. All you need to do is drop into a called location and search for three chests. This can be done in one game or over several games. To complete this challenge, players will need to visit Lazy Lagoon and Lucky Landing in a single match. While it shouldn't be too difficult, this challenge is a bit annoying, as these locations are on opposite sides of the map. Since you need to visit the two in a single game, it is best to land in one location, find one vehicle and drive to the next. To complete this challenge, players will need to earn 250,000 Trick Points in a vehicle. Vehicles can be found all over the world from Fortnite, especially in garages, next to trailers and on the side of the road. A good way to get Tricks Points is to pick up a vehicle and drive it on a Slipstream. You will be able to accumulate points while you stay in the stream. However, unlike Season 9, there are only The Whirlwinds in Neo Tilted and Mega Mall. Another way to get Tricks Points is to drive the vehicle to the top of a high point and then off the edge and do some tricks while you're falling. You can rinse and repeat these methods until you have collected enough trick points for this challenge. To complete this challenge, players will need to visit a Drift painted Durr Burger Head, a dinosaur and a stone head in a single match. The prestigious version of this challenge is very similar to normal. The only difference is that you should visit all these locations in a single game. As a reminder, you can see the locations. Durr Burger Head (red), Dinosaur (yellow) and Stonehead (blue) on the map above. To complete this challenge, players will need to get five kills while driving a vehicle. Perhaps one of the most irritating challenges in mission challenges Trip, players will need to get a handful of kills while driving a vehicle. As with your your This challenge can be done solo by running over opponents or with a friend while hitting opponents. The easiest way seems to be in the Time Rumble, however, the choice is yours. To complete this challenge, players will need to destroy seven stop boards with the Catalyst team in a single match. The main difference around the Prestige version of this challenge is that players will need to destroy seven stop signals in a single match. This can be a bit tricky, because finding signs of stop is actually a bit difficult. However, there are four in Pleasant Park and two in Paradise Palms, Mega Mall and Salty Springs. There may be more scattered elsewhere around the map, but these are the only ones we've been able to find so far. To complete this challenge, players will need to deal 200 damage to opponents while riding a zipline. This is going to be a pain, because the chances of seeing opponents while riding zipline are slim. It seems that the easiest way to do this would be in The Time Rumble, where there are a multitude of opponents. If you are lucky, or very determined, you may be able to complete this challenge in a reasonable time. However, for most players, you're likely to want to keep in the back of your mind and look for natural chances to complete it while playing. To complete this challenge, players will need to eliminate five opponents in different Named Locations. There's not much to say here. You will need to accumulate a total of five deaths at any of the named locations. Once you've done that, you can check this Road Trip Challenge off your list. To complete this challenge, players will need to visit ten Named Locations in a single match. This challenge should not be too difficult if you have a vehicle. All you need to do is drive around the map and visit ten different locations. We suggest landing away from the battle bus path, so you minimize the chances of finding an opponent. To complete this challenge, players will need to earn 500,000 Trick Points in a vehicle in a single match. This is going to be a pain and it can take a while if you're not familiar with getting Trick Points. The most annoying part here is that you'll have to do all this in a single match. In theory, you can ride a Slipstream for a long time and knock it out. However, there are many different ways to get Tricks Points. Points.
