In the United States, the Age of Consent is the legal age at which a person is considered mature enough to consent to sex. Sexual intercourse with a person under the Age of Consent is considered a legal rape, even (in some jurisdictions), if both partners themselves are younger than the Age of Consent. Age of Approval: 16 years 17 years 18 years Legal age of consent varies from 16 to 18 years from state to state throughout the United States. In some states, near-age exemptions exist to decriminalise consensual sex between two individuals who are both under the age of consent. Find The Age of Consent law around the world In the United States, the age of consent is the legal age at which a person is considered mature enough to consent to sex. However, the actual age is established by individual state law. Sexual intercourse with individuals under the age of state-mandated consent is considered a lawless rape, since rape is generally defined as sex without the consent of another person, and anyone under the age of consent does not have the ability to consent in the eyes of the law. In some jurisdictions, this is true even if both couples themselves are younger than the age of consent and both parties can technically be prosecuted. Punishment One or more charges may be used to prosecute violations of the state's age of consent law, such as rape by law or state equivalent to that claim. The severity of criminal charges (e.g. Class A crimes, Class B crimes, minor offenses, etc.) depends on the specific actions taken and the relative age of the perpetrator and victim. Those found guilty face fines and jail time, as much as \$25,000 and fifty years in prison, depending on the state. Age range of Consent in the United States Different state laws and the minimum age of consent in the United States is sixteen and the maximum is eighteen years. From time to time, states update their laws, including the age of consent. For example, from 2018 to 2019, Wyoming and New Mexico raised their approval age from sixteen to seventeen. Approving Age Differences In some states, there is a near age exemption. It is set by some states to allow exceptions when consensual sex involves an individual, or individual, who is a minor and his or her partner is overage. This age-dependent exemption is also known as Romeo and Juliet law and is designed to prevent the prosecution of underage couples who engage in consensual sex when: Both participants are close age, and One or both are under the age of consent. As of July 2019, there are twenty-five states, The District of Columbia, which has near-age exemptions, and twenty-five states that don't. Permitted age differences are typically in the range of two to five years, but Utah's close exception in age allows teens aged sixteen to seventeen to approve a partner less than seven years older, and a partner between seven to ten years older if the spouse does not have reasonable knowledge of the age of the minor. Then there are other

exceptions and specifics depending on the specific circumstances. It can be very varied and can be very complicated. For example, in North Carolina, it is a crime regardless of age to engage sexually with a student if the defendant is: a school teacher, a student teacher, a school administrator, a school security officer, a coach, or any other school employee at that child's school. But there are exceptions to all this if both couples are married, then the age of consent does not apply. As you can see from the North Carolina example, the age of consent laws becomes complicated depending on what state law applies. For this reason, a quick review for the other eight states is included below. California Age of Consent: 18 Near Age Exemption: Not Just under forty million people, California is the most populous state. His approval age is eighteen, and anyone seventeen and under is deemed incapable of consenting to sex in California. So, anyone who has sex with a partner under eighteen theoretically commits a crime. Even if both spouses are under eighteen years old, technically, both can be prosecuted under state law. California's rape laws are violated when a person has consensual sexual intercourse with an individual under the age of eighteen who is not their spouse. Punishment varies depending on the age of each victim and perpetrator. Separate crimes exist for sodomy with a minor and sexual intercourse with a child under the age of fourteen when the attacker is at least seven years older. California has seven allegations of law-based sexual harassment on the books. Texas Age of Consent: 17 Near Age Exemption: No other state is densely populated, Texas law rape laws are violated when a person has consensual sexual intercourse with an individual under seventeen. While there is no imminent age exemption, the potential defense exists when the offender is no more than three years older than the victim and the opposite sex. Sexual relationships between school employees and students are prohibited unless they are married, and no age of consent is specified in specific instances of school employees and students engaging in sexual intercourse. Texas has five allegations of law-based sexual harassment on the books. Florida Age of Consent: 18 Near Age Exemption: Yes As one of the retirement destinations in the U.S., this state is the third most populous and the age of consent Eighteen. So, anyone aged seventeen or under is deemed incapable of consenting to sex. Florida does have a near age exemption, or Romeo and Juliet law, but it's a little different. This allows children under the age of sixteen or seventeen to engage in consensual sexual intercourse with a partner no older than twenty-three years old. Florida has four allegations of law-based sexual harassment on the books. Alabama Consent Age: 16 Near Age Exemption: Yes While the age of consent is stated as sixteen, Alabama's legal rape laws are violated when a person over the age of eighteen engages in sexual intercourse with a person over the age of twelve and under the age of sixteen. Or, when a person aged sixteen or over engages in sexual intercourse with a victim who is at least two years younger. In addition, a perpetrator commits a sodomy crime if an individual sixteen or more engages in deviant sexual intercourse with a person under sixteen and older than twelve, and this is enforced as a legal charge. Alabama has ten allegations of legal sexual harassment on the books. Georgia Age of Consent: 16 Near Age Exemption: Not When a person has consensual sexual intercourse with an individual under the age of sixteen who is not their spouse, Georgia's rape law is violated. Although no imminent age exemption exists in Georgia, if the offender is under nineteen years old and the victim is no more than four years younger, the offense is classified as a misdemeanor rather than a felony. Georgia has eight allegations of law-based sexual harassment on the books. New York Age of Consent: 17 Near age exemption: No state is large and densely populated, New York's rape laws are violated when a person has consensual sexual intercourse with an individual under the age of seventeen, for which they are not married. Penalties vary depending on the age of the offender. Also, in New York, there is no defense based on a lack of knowledge about the age of the victim. New York has fifteen statutes of sexual harassment allegations on the books. Pennsylvania Age of Consent: 16 or 18 Near Age Exemption: Yes If both parties are under eighteen, Pennsylvania has a consent age of sixteen. Or, if the defendant is eighteen years of age or older, the age of consent is eighteen. The state's under-the-law rape law defines the age of consent as sixteen and is contrary to other laws; The corruption of Pennsylvania's minor laws shows that the age of consent is eighteen. This has generated some confusion since laws in this state now allow teens aged sixteen and seventeen to consent to each other, but not to anyone aged eighteen or over. Teenagers aged between thirteen and fifteen may or may not be able to consent to a partner aged less than four older. It cannot be ascertained because while defendants may not be affected by the law's rape laws, they can be prosecuted based on other offences, Pennsylvania has six allegations of law-based sexual harassment on the books. Ohio Age of Consent: 16 Near Age Exemption: Yes Ohio rape laws are violated when a person has consensual sexual intercourse with an individual they do not marry who is under sixteen years of age. Near age exceptions exist that allow minors and older to consent to a spouse under the age of eighteen. Ohio has five allegations of law-based sexual harassment on the books. No, there is no uniform age of consent. The Age of Consent is the minimum age at which a person may consent to participation in sexual intercourse. A person younger than the legal age of consent cannot legally consent to sexual activity. The age of consent in the United States ranges from 16 to 18 years depending on the state, meaning that a person 15 years of age or younger cannot legally consent to sexual contact. Each country enacts its own laws that set the age of consent. If a person engages in sexual activity with someone younger than the age of consent in that state, that person may be charged with Rape Under the Act or other offenses depending on the nature of the contact. The following is a map illustrating the age of consent for all 50 states and a chart describing the same. *Note: This chart is currently in 2016, but is subject to change over the years. Please don't rely on this chart to make any decisions that could affect your life. Check the legal age of your own state's consent to make sure you are fully informed, because ignorance of the law will not be a defense for you if charged with child sexual offences. Texas, as well as many other states, has created the so-called Romeo and Juliet law, an exception to legal rape and legal age of consent. Romeo and Juliet's law is targeted at teens and young adults who engage in sexual intercourse with someone under the age of consent (17 in Texas), but who is still close in age with a sexual partner. Romeo and Juliet provisions create a close in age exemption and keep these would-be offenders classified as offenders Under Texas law, if a person over the age of 17 has consensual sexual intercourse with a person under the age of 17, but there is also no more than a three-year age difference between the two spouses, the Texas Romeo and Juliet law will not allow allowing person to be charged with rape under the law or classified as a sex offender.
