Church St., Grass Valley, CA 95945 Cinderella's famous glass slippers have become an iconic symbol in the fairytale world. Highly commodified through Disney, these shoes are well known and sought after in today's society. Places to get your hands on a pair of glass slippers: Make them yourself: Cinderella Glass Slippers & Symbolism Glass slippers represent three main themes: 1.) Glass = Pure = Losing Purity of 2.) Link = Put Together = Love 3.) Character = Slippers do not break while worn = Gentle Now lets break them! Glass: Glass = Pure = Losing its purity First is the idea that cinderella's precious slippers are made of glass. Through social associations we can conclude that glass possesses associations of clarity, fragility, beauty and purity. And we can jump the ideas of chastity to the idea that Cinderella will lose its purity. That's why glass slippers symbolize the loss of Cinderella. For example, Cinderella rebels against the rules given to her by slipping out on the ball, losing her purity and innocence as she embarks on the journey to find herself. Link: Connection = Putting Together = Love A very important aspect of slipper a glass that the prince finds is that the slipper will only fit on a particular foot. So as the prince searches the castle find the one foot (foot of Cinderella) is in search of connection, the connection between the glass slipper and the foot of Cinderella. The connection of the slipper and Cinderella's foot is important because it shows how the two of them fit perfectly together, resulting in their true love. Character Character = Slippers Do not break while worn = Gentle Last, but certainly no less important, the list of symbols held by glass slippers is huge! Check out some other folks thoughts when it comes to glass slippers and other Cinderella symbols here... There are so many wonderful blogs out there! Back in character, the character of Cinderella is a reflection of the fact that glass slippers don't break while being worn. Its character characteristics can be considered gifts, as it received the help of agents, in this case her fairy godmother. The characteristics and gifts of her character consist of kindness, grace, optimism, hard work and ultimately kindness. Her kindness shines through with the fact that she is able not only to wear her glass slippers, but to dance to them, to run to them, these, even travel her way out of them leaving one behind. That's why it symbolizes that her character is kind. Wrap it up! In total, the glass slippers symbolize three ideas: Cinderella's purity, her connection to the prince and her gentle character. However, they can also be used to represent and demonstrate her journey and transition to life. Tune in next time to learn more about Cinderella's journey from dependency to empowerment! I'm sure most, if not all, of you must have simultaneously in your life watched the classic Disney movie Cinderella. In one part of the film there is a scene where the clock hits 12 and Cinderella runs down the stairs and loses a slipper. Many people (who have too much time on their hands) like to point out the flaws in this scene. Usually the questions range from how he dances on the glass and never breaks? Why does the slipper fall on top of her if it had to be perfect for her? Today, I'm going to focus on the second question, why would her slipper fall off her feet if it was perfect for her? If you watch the original Disney movie, you'll notice it's with the price when the clock hits 12. She runs down the stairs as she hits 12 the second time when she loses her slipper. The reason the slipper falls off her leg is because the magic gets worse. This is not just about slippers, this is everything from the carriage to the horses to dress etc. The reason we can see it happening so quickly with slippers is because they are so small compared to the rest of her outfit that they don't need a lot of magic to exist. The reason they never disappear like the rest of her uniform is because when they split up, their power weakened. No slipper had enough magic to disappear, so they remained. The reason they didn't fit on anyone else's leg except Cinderella is because Cinderella had Say Planus or flat feet. All the people who tried on her slippers took legs that looked like they were swollen making it look like it didn't fit. Also id like to point out that in a kingdom of this size, it is impossible to find someone else who has both flat feet and wears the same size shoes as Cinderella.
