Dyson absolute manual

Dyson V11 Absolute Cordless Vacuum Cleaner 268734-01 - User's Guide - Guide To Use PDF Download or Read Online. For more information on operating manuals, please read the 'Important Safety Guidelines' in this Dyson Operating Manual before you proceed. Installing the Docking Station • Select the location of the docking station, charger, and installation leaflet and make sure that the plumbing (gas, water or air), electrical cables, wires, or ductwork are directly behind the mounting position. • Follow the instructions on the installation leaflet. • Place the attachment in place on the docking station. • Place the attachment on the power charger. • Place the attachment on the power charger. • Place the attachment in the device charging station. • Power up. To charge the battery, turn it on (if necessary). • The device must be fully charged before first use. Docking stations must be fitted in accordance with regulations and applicable codes/standards (state and local laws may apply). Dyson recommends using protective clothing, glasses and materials when installing docking stations. Vacuum cleaner • Remove the product from the docking station • Make sure the underside of the cleaner head or tool is clean and free of debris that may cause damage. Before vacuuming floors, carpets and carpets, check the cleaning instructions recommended by the manufacturer, and the appliance brush bars can damage certain carpet types and floors. Some carpets will flow when using a rotating brush bar when vacuuming. In this case, it is recommended that you vacuum without power floor tools and consult with the floor manufacturer. High Torque Cleaner Head - Suction Control Slider • Your high torque cleaner head has slider control to adjust the suction of the cleaner head. To select the required suction, move the suction control slider over the vacuum cleaner head. Add maximum suction (+) click quick start for ground dust and debris: 34UC80-B WCSR4170DACC JGBP8WEK2WW DW80R7060UG/AA SRF751CCS Optimal Balance. It is important to automatically adapt a clean filter between carpets to maintain the suction force of the vacuum cleaner by attaching a high torque cleaner head to activate the automatic mode. Therefore, check the filter regularly. When the filter is clogged, dust absorption is reduced and energy consumption increases.
