The dungeon was released in May 2017 as part of the Velik Fate (Secrets of the EU's Velika) patch. The hard mode was a little off later. Hard mode was part of the end game, dropping material for tier 12 death rack (VM9) gear. The dungeon reopened in January 2019, including the hard mode version. VS remained one of the most difficult mid-tier dungeons. In Patch 92, April 2020, we moved to Level 68, a low middle-tier dungeon that requires 446 illevels. Unfortunately, it is still harder than red shelters or RK-9 kennels that require higher illevel. We're giving players 99 free revivals to compensate developers. This will certainly give some great .com the Wall of Shame moonsgourd. Note: There are several instances with the name Sanctuary of Velik. An instance of talking to Velik during a story quest, where you can talk and access the priest Siebel and other Velik's sanctuaries as you enter Gilliard. Lore [Edit | Edit Source] As seen in Velic's hold, Laquan is taking over Velik's sanctuary. His plan is to build a bridge heading to Agaia to free Manahan after Shandra Manaya did not do this. Dungeon bosses are laquan's syllables who previously had their own dungeons. Dungeon Denizens [Edit| Editorial Source] Boss [Edit | Edit Source] Resurrection Durkan Revival Dakryon Mutant Perimos Lakandacan and DakRillon are the last bosses and second bosses of Sky Cruiser Endeavour and Shadow Sanginary, but they have some extra mechanics. Mastering these bosses makes it much easier to execute. Miniboss Perimos is shadow sanginary's first boss. Map main boss Banyakas, Ghilliedhu Patriarch Velik's Sanctuary where dungeon entrance is located It is accessed through the teleport scroll Velik's Opportunity that can be bought for VG Credits from Sionne in Highwatch or other Vanguard merchant. Elite / premium account gives free teleport scroll in the perks bar. The teleport scroll will lead you to goddess Velik's sanctuary and to teleporter to the Ghillieglade entrance. Ghillieglade has three bosses. It may be necessary do all three if character has low gear and player is not experienced with dungeon. First boss mission is to protect guardian from attacking mobs until all crystals where mobs spawn break. Second boss encounter is to defend second guardian while he recovers. You must attack two teraliths to stun them or draw aggro so they won't hit guardian. However most geared players just run straight to the last boss Banyakas. There you have to destroy the red crystal. If player chooses to skip the two. They are owned and spawned on the side to perform random stun attacks (red rings) during boss fights. Also, the boss fight becomes difficult and you have to damage the boss himself to take him down to about 30%. Reward chests spawn after the fight is over. Break it and take the loot! breasts give you random upgrade mats like goldfinger tokens (collect 80 for underwear bags containing random innerwear), rubies, emeralds, or rarely diamonds, small amounts (talent, sophisticated elixirs, arch devan catalysts, etc.) and crystal boxes. Tip [Edit | Edit Source] Spawned several Gileadydou mobs during boss fights. Kill them to get health motes. In the last boss, the red crystal has the backside towards the player, outside. This means that normal back dps weapon crystals can be used. But the boss himself has his front towards the player, which means he is much less useful and the usual dps crystals are useless. Characters with low gears like the Guardian or the low-end twisted shard do more damage to the boss from the front using riathful crystals and Savage can kill crystals faster. Also, buffs can be used to fight bosses to give more criticism rates like quick calf brooches. Some classes include some buff skills (Slayer's Savage Strike, Berserker's Unleashing, Priest's . . .) Gain the skills to do backcrting even before you have. But characters who have the gear to gain Apex skills have no problem killing their bosses anyway. There is a small area where a range classified like magicians and archers can sidecrit bosses to benefit from critical power bonuses on their back + side during boss fights. [1] Tanks can also infuriate crystals to do more damage. When the fight is over, it is recommended to end the dungeon with command/reset. It resets dungeons and bosses to allow for a second run. The fastest way to do two runs is to go back to Velik and use scrolling again in the teleded dungeon after /reset before entering the dungeon again. This avoids loading the Velika city model. You can actually leave your alto to the sanctuary of Velik and use them just for Gilliard. (Velik's Sanctuary is actually a strange place because it's on a dungeon server and when you're there, you can see players from other servers.) Once a day violet campfire occurs at the Sanctuary of Velik, I think it was meant to give you the opportunity to use charms there. If you don't get firewood, it disappears 15 minutes after spawning. History [Edit | Edit Source] Gilead was added in the July 2014 update. The tele portal was originally located in Deba Silva in Oblivion Woods. Dungeons can be entered daily for free. Achievements related to dungeons could only be completed in this level 60 version. TERA: The fate of the Arun Dungeon has been changed to its current location. The player's spawn location has been changed from its original location to the middle of the dungeon. This will increase the speed at which you reach the Berynans. In late 2020, the bosses below seem to be completely sealed off and you are meant to fight The Barnhas. See [Edit|Edit source] : Essentialmana See Magician's Guide: [1] Fight through this underground hall and find The Fate of Riander. Update your guide with internet quotas, CPU and a little friendly to the eyes, and try to rescue the son of legendary blacksmith Muhlaq, Kara Hill, by adventure to a red shelter. Laquan, where the prison under oblivion Woods began to show signs of mysterious activity. Someone or something is trying to free Lakan and it's up to you to stop them. Vergos returns with this 20-person version of Hello hold! Archer Hunt has become a celebration this season! Read this guide and learn how to optimize yourself for the battlefields of Winterua! You'll only be confused by reading - try watching this guide to experience it first and then understand how mechanics work. This is as bad as a broken prison.
