Twitter The future lay in front of The Pack as a purified valley of the mountains: full of struggle and conflict and hinge and joy. And if her friends needed her to guide them through this, storm would lead with joy and courage. It was life in the wild, life as a free dog, life with dogs who didn't know the master of long-range, dogs that protected and resorted to each other. That was the life of the Wild Pack. — The storm, which reflected the wild pack's battle in the final battle, page 317 Storm, is a scar,[14] lithe,[15] long-league,[16] muscular[17] thickness,[18] Female[29] Sharp dog[20] with large padding,[21] glossy fur,[23] sharp head,[24] soft, sharp,[25] wide,[26] dark[27] tan face; [28] Light[27] beige sponge; [29] small,[29] soft ears,[6] one of which is torn; [30] long,[14] sharp needles,[31] white teeth; [32] dark[25] brown eyes,[33] and a short, thin tail. It takes place a few months after the original Series Of Survivors. [2] The view across the arc is Stormy. It consists of six books in total. Description Package divided Life of the pack is full of danger. Storm spent her life fighting for survival and acceptance. Now he finally feels at home in the Wild Pack, and for the first time he remembers, the world outside their camp is at peace. Even after the storm of dogs, the Storm still doesn't quite trust her friends. With a whisper that follows her around and roaring her, she'll be able to keep it. And not rip out the whispered throat or others? Tensions are rising within the pact. Some dogs are far from satisfied with the Pack order, while others still don't trust Storm and Arrow, the only two Fierce Dogs in their ranks. Worse, Storm fears her friends might be right. The storm, which is worried about dreams of fear and shadow, is not sure which is the bigger threat – a theme that spreads within the package... or darkness within itself. Dead of Night In a Pack, loyalty is everything – but some dogs should never be trusted. The storm was disturbed by the terrible dreams of fear and darkness that kept her pates while she slept. Now a new theme has struck at the heart of the wild pack. The whisper is dead, and Storm is convinced that only another dog could have done his wounds. Lucky and her friends are reluctant to believe, but Storm is determined to face the truth: Can he be a traitor in their midst? At Shadows United, the pack can face any threat. Divided, they will fall. He is a traitor during the wild pack, and tensions and suspicions continue to rise. The storm is determined to protect its package... But if they don't find the traitor soon, there may be nothing left to protect her. The red moon rises when no dog is safe. After alpha and Beta's puppies drowned in Infinity Lake, Storm is the hero of her team-2. But the danger still goes between them – and it won't be long before the traitor dog strikes again. The package must find a way to stand together against the most malicious and unhealing enemy they've ever known... They tear them apart from terror and doubt forever. The journeystorm from exile is in exile. After dealing with the mistrust and suspicion of her fellow passengers, who think she was a traitor and a murderer all the time. He can finally follow his path. But on the dark side, he feels more lost than ever. There are only two dogs she knows that will never give up on her- Arrows, her co-worker, The Son dog and his friend Bella. To find them, the Storm must fight through the danger of long sleuths, Causation dogs and an unknown pack of wolves, all in search of a place to finally belong. The last battle time has come for the traitor to fall. Storm discovered the identity of the traitor's dog, who sabotaged her former pack - but when she returned from exile, she fell straight into the waiting trap of the traitor The Dog. Now he's a prisoner in the Wild Pack camp, the Storm are running out of time, it was only a matter of time before the dog traitor made his next move. This is her last chance to save the package... And finish what this traitor started.
