For the most part, you can assume that the majority of these are missable or will not be available again for a long time. After waking up from sleep, having been to the early hours while talking to an old friend of the previous Class VII, you will most likely be quite tired. Fortunately, today is your first day off, so you can just sit back and relax and take in what the city has to offer. Go to the men's bathroom to relax and see the Sub Event. Once you're all dressed you'll be given a bottle of fruit milk from Towa, as well as campus enhancement rating +2. 1234(1 to 4) Talk to Rachel to get heartless Edgar - Chapter 1 Book Exodus from the dorms and follow the road to the left to find yourself in the city center and then head inside Leeves Chapel to watch a short cut, go outside and go to Carnegie Books & amp;; Games on the right, here you will want to talk to Rachel and get Heartless Edgar - Chapter 1 Book. Go out and walk into Lapin Boutique to buy the Silk Handkerchief as a gift for Elise, now go to barney's tavern and inn and buy piled Onion Rings to acquire it as a recipe for your collection. Note: You need to use Gifts from the Items section of the menu, they will increase your Bond with this character and provide you with statistics for characters that can be played. Note: By testing the recommended dishes at Inn, you will be able to learn their recipes so that you can prepare it yourself if you have the necessary ingredients. Finally, go to Nyo-Su-On import to have a short conversation with Old Man Rod, where you will get a custom rod and 5x Bait, after the conversation has come close, you will get more information about fishing. Before you go, buy Mizu Yokan as a gift to Altina. Outside you will encounter a courier who will give you the necessary Quest delivery package. Craft as many chunky potato salads as you can and then sell them for a small profit. At this point the game you will have to save until you get 31,000 Mira. Fortunately, there is a neat trick that you can do that will help you achieve this goal a little faster. Buy ripe cheese, irresistible potato and rough rock salt from the old man's genealy and then go to your notebook and choose to craft as much as you can, you'll eventually be able to craft more with extra mira you've won, so keep building it until you get to 99 and then keep repeating the process until you have 31,000 Mira. After close, purchase a double line, automatically drag, drag, drag, Rod, custom handle, Shock Reader and Tuned Gear, then go outside to start delivering these packages. Note: Although optional, this fishing equipment will allow you to catch some extra fish earlier, allowing you to get a bonus from Old Man Rod. Fishing equipment in general will also facilitate fishing. Required Quest: Package delivery! Your first stop at your delivery round will get you down the driveway that is to the right of Lapin Boutique, you'll eventually see a door on the left that will take you to the Neinvalli Exchange, here you'll want to give Jingo the first package. Before leaving the store, buy here 100 Mira from 100 Tapa (the second for 10,000 Mira can be left for later). Note: The Neinvalli Exchange will allow you to trade in high-end items, and be able to pick up some missed items by checking the trades they should offer. Follow the road to the left of the Nio-Sui-Ann import and you'll come across Radio Trista, go inside and hand munk the second package. Now for the last package you will need to take a quick detour to campus, a quick trip to the Vegetable Garden and talk to Sandy to give her the final package. Finally, make your way back to the city and talk to Supplier Jim to fill it in the good news to complete this Quest. Note: After completing the search delivery you will earn some AP (academic points), they can be earned by completing quests and making certain decisions throughout the game. As your points to access points from the point of use of their access points pass through a threshold, you will be given a reward and will affect your ranking in your chapters at the end of a chapter. This is probably the most important thing in the game, as many trophies are associated with AP along with some of the best equipment and quartz. This guide will give you access to any access point. With this search done and dusty you'll want to pop into the Chapel of Leeves to see a sign once the gizzerion is finished you'll notice that a kid dropped one of his cards on the floor. Head to Carnegie Books & amp;shop to return it to it, you will now be given several Vantage Masters cards of your own to use in your first game of Vantage Masters vs Zach. Before you start, you'll want to add five more cards to the deck, which can be made by pressing the [Triangle] button then pay special attention to the lessons that appear to help you conquer the first battle. When winning you will be given 3x Magic Crystal Cards to help you in the battle to come, buying sister, marme, medic, and Transmute cards, as well as Imperial Chronicle - Issue 1 Book by Rachel and then choose to play against her. Make sure that you have added all the Crystal maps to the deck as they will increase both you HP/ATK by one, then you will want to put on your master, Fighter card. You'll also want to add add Medic Card, which will restore four health to the selected card. Keep playing against Rachel until you can beat her, in which you will receive a D-Arma Card as a reward. Warning! Vantage Masters is an important activity in the aisles of Cold Steel III. There is a Trophy related to winning over all opponents and collecting all the cards (some of which are missed), and later in the game there is an event that requires you to beat the opponent for the bonus, which is more difficult if you do not invest time in it. 1234 (1 out of 4) Head to the private residence to find Tomato's Life in the Back Room Get out of the store and sneak into the private home and move into the back room to get Tomatonio's Life - Part 1 Book. Go out and go to the right to find the River Livesh to make a fishing spot, here you will need to catch Kasagin, Snowplow, Carp and Roqueter. To catch fish, you'll need to press the [Circle] button on a certain color. Blue means you'll get a little fish, Green will give you an average and finally Yellow will give you a big one. Now you'll need to hold the [Circle] button to keep it blue until the fish reaches the left side to catch it successfully. Once you have caught all the fish go and see the old genus and he will give you a double hook to catch three different fish. Note: Unless you have grown for Mira earlier to buy fishing equipment, you will only be able to catch Kasagin here. Tip: Make sure you keep your game before trying to catch this fish so you can recharge and try again if you don't get them the first time. Spend Bonding point for Moussa to get her Go to the Academy area and talk to juna on the signs Note and then appear in the library to talk to Ash and get his secret, now go and see director Aurelia in the General Art Room for her character note. Now you'll want to spend these Bonding Points, so the first person you'll want to visit is Musse in Neo-Sui-Ann import and use a point from it to see an event after you've seen the event, you'll get Musses' Character Note. For your remaining point, you can choose between Kurt or Altina. Note: Always select Bonding Events that give you a sign note (see Tables above), although in the new game+ you will have a maximum number of points that will allow you to see all events. Party Search: Spice must run! Talk to Gina to start this Quest country. To accept this side adventure, you'll want to talk to Gina in the café and then head to the hotel to talk to Barney, he'll let you know he's also run away from Star Anise, so you'll have to stop by Nia-Sui-Ann's import to get some of the old family. After taking it back Gina, she'll reward you with some Spirit Incense. The last task of the day is to head to the Conference room, this will allow you to make sure that you have done everything before you head there. Once the scams are over, head to the roof and talk to Pablo to accept The Campus Quest Branch Group, then go to Station Square to talk to Valerie, who sits on the bench to discuss the club's new idea, now you'll enter a brief scene. Once the group decides to come together and create the club, you'll win the Pablo Character Note, now sneak into the club to challenge Sydney to the Vantage Masters game to win the Hepetus x3 after the win. The last thing you'll want to do before showing Milium around campus is to use next to Bonding Point, here you can choose either Juna (Academy Field) or Towa (Library). 12(1 out of 2) Face Sydney in a Vantage Masters game at The Peak Club: Make sure you buy some battle ranges from nyo-Sui-An imports before talking to Altina as you'll be on a mission in Einhel Keep - LV1. Head to the dorm toilet to see a scene, and once you've dried up the Bond with Milium will increase, now drop into Radio Trista and talk to Munch. Finally, get out of the radio station and enter your opposite case to talk to Altina twice to deal with Einhel Keep - LV1. Anechel save LV1! Once the enemies have been treated, follow the path to the right and break the blocked path with Altina to open the chest that contains Airstrike R, which can be used to attack an enemy and potentially dazzle them, now climb up and take more enemies. Take the left path and remove Softshellion before opening the second crate to get a Silver this can be used to Poison when it's equipped. Continue along the right road and climb up the ladder to find the third crate, which contains 50x Earth, Water, Fire, Wind, Time, Space and Mirage Sepiot. 12(1 out of 2) Towards the end of the staff you will find a chest with the yellow hair - Milium insideConnect at the end of the hold you will find a chest of yellow hair - Milius inside (left), and then head to the room to the right before going down the ladder to find an R armchair in another crate. (right) Take the other path and then head down a short path to the left to find the fourth chest that has the Yellow Hair - Milium inside, continue to follow it and you will see a ladder. Before going down, take the road to the right to find the last crate that contains Crest R, which gives you HP +200/DEF+6 while increasing def allies in battle. Go down the ladder down and you'll find a PC that will say locked on the screen, interact with it to open the shutters around Hold, now go to Einhel LVL1 - Depths. Use the recharging station before proceeding to the next room. Using the recharge station, you can open some slots for Rean or Altina to equip your new Quartz, but avoid Milium as it won't stick around for long. If you have a spare slot, be sure to equip the Air Strike R you have on Altina, this is useful for the battle in the upcoming battle. Note: As a general rule, any chapter you will be able to buy a new weapon, which in turn can be upgraded to a more powerful version of it. Make this one of the first things you do each chapter, it makes a huge difference. Boss: Rontes☆☆☆☆☆☆ E - 100, WA - 80, F - 120, WN - 160Needle Shoot SR To start your battle against Ronti, you will want to use Battle Scope on it to get an idea of its weaknesses, you will notice that it is very weak to wind, but only slightly weak to fire. You'll want to use the Ebon Crest Brave Order as it will allow you to deflect all incoming attacks against the party, as well as restore 10% HP/EP for four spins. Now you'll want to crack it as quickly as possible, so try using high-scoring break attacks, for example Milium's Megaton Press is great as it has an S Rating. It will make a big attack that if you do not have Ebon Crest active will handle a fair amount of damage to everyone in the range, so make sure to heal if necessary. 123(1 out of 3) Use Battle Scope to understand its weaknesses When it's broken, you'll want to deal with as much damage as possible, so now it's time to take advantage of these S-Crafts. If it manages to get out of breach status, it will now try to carry out a charge attack, so you will want to use Ebon Crest again to Damage. If you find yourself poisoned by Poison Breath, use an antidote immediately, the damage is really added if you leave it. Your tools tools still limited here, but we hope you are able to open some slots to give you a little by hand. Like most Nightmare bosses, using Brave Order is key here and you'll want to keep White Decoration for most of the battle to limit the damage Rontes can do. Rontes is weak for wind, and your new R airstrike must be Altina's to let him throw it, especially if your turn falls on its zero turn. Take advantage of Crscent Flash and Megaton Press from Milium to deal with major break Damage or alternatively use Milium's CP to throw ultimate barrier each round to cancel attacks against it. If Rontii uses Poison Breath on you, rest assured that an antidote immediately, the damage is really added. Rest assured that you are ready for S-Crafts when you break it, so you can deal with so much damage before you do Ogre Ville, significantly increasing your statistics. If you have BP here, now is the time to use Ebon Crest to reflect the attacks back to it. Leave Keep! Use Fast Travel to return to the entrance, where you'll get some scenes, and then the weather will move on to the next day, where you'll go through your first Panzer Soldat training session with your team. Drakken II! Target for the body when Drakken is in its default position (left), and then aim for the head when it is in its charging pelvis. (right) EnemyHPPositionHeadBodyArm Drakkhenn II - Rean33000Default ☆☆☆☆☆ ☆ Loading☆☆ N/A ☆ You'll have both Juna and Kurt for the first entry into mech battles, and if you're new to the Cold Steel series, there are a few things to learn. As a rule, the enemy will take different positions before turning it, it will change its current weakness and will have to hit it to build BP at what point it will be able to unleash finisher. It is the general rule that these battles follow and abuse should be sought. For this introductory battle focuses on attacking the body when Drakkan is in his default position, but then shifts to Head when it starts to load an attack. More importantly, you always reserve kp for Craft, which can hinder, this should take precedence over attacking weakness when the enemy is charging. Follow these simple steps and you won't have a problem taking Drakkhenn II down. Hector MK. II! ¶ I aim at Hector's body when he is in his left implied position and then transfer to his hands when he is in his charging station. (right) EnemyHPPositionHeadBodyArm Hector Mkector Mk. II - Ash41000Default ☆☆☆☆ ChargingN/AN/A ☆☆☆ To get through this you will need to play great attention to the purchasing position, so when he is in his charging position, you will want to attack it is the hands and then get to the body when it is in this is the default position. Make sure you use an attack to thwart it or defend it when the enemy enemy Red line focusing on this character as it means that they will use Craft, which is very powerful. By striving for the right parts of the body to attack, you will disguise them, allowing you to perform tracking and build BP when you have three or more BP, you can use finisher that will give you a lot of damage. The Hector does a lot of damage, especially during the charging position, so be sure to protect when it attacks you if your HP is low. After the battle, more scenes will take place and the weather will move on to the day of your field exercises. You will also be given a search report on this page, you can use it to determine if you are on the right course to achieve S Rank at the end of the chapter (if you follow this guide, you will have no problems). After the day off, you will be given a search report. Report.
