Recently, however, there has been a lot of enthusiasm in the coffee and health sector. Organo Gold has introduced to the market a range of coffee and tea products that are upsetting the industry by injecting their drinks with the 4200-year-old Chinese herb, Ganoderma Lucidum, also known as The King of Herbs. Do these beers taste good? Better than good. have a fantastic taste! Dr. Bob Rakowski, a leading clinical nutritionist has this to say. It's easy to see why the Chinese label Ganoderma 'the herbs'. It alkalises the body, increases oxygen supply, facilitates detoxification, controls inflammation and enhances immune function. When you consider these five five factors, there's really no one walking around who can't take advantage of it in some way. There may be a tendency in the alternative world of health to make the case that if it has been a long time, it should work! We'd rather try a box and feel the difference for yourself. Choose from Café Latte, Black Coffee, Mocha, Hot Chocolate, Green Tea, Red Tea and Black Tea. They come in boxes containing sachets that allow you to have your favorite cuppa anywhere without hunting for a coffee shop. All you need is hot water! How do you get this revolutionary, great taste tea and coffee?
