Partying with a mentor will double the quest's exp reward and give you powerful items such as Dark crystal equipment and the Dragon Fire Ring which are very powerful for low levels and equivalent to level 150 gear. Team[edit | edit source] Ask a high-level friend or guild-mate to power-level you at West Atlantis. Reaching level 95 should take less than 1 hour. This method is recommended even past level 100. Remember to pick up the Ancient Book Of Growth (50M exp) Chest by yourself, Levels 100-120[edit | edit source] Solo[edit | edit source] At this point, you should have accumulated a good arsenal of weapon and armor and upgraded your mercenaries and given them skill books to strengthen their abilities. Hopefully you should also be in a guild that runs guild dungeons and training center on a daily basis. Monsters in both guild dungeons and training center auto-levels to your main character's level with a few exception (such as bosses and the Golden Dragon's Cave dungeon monsters). These will reward you with decent exp and valuable items. Olympus Tower floor 1 also becomes available at level 60 with auto-leveling monsters, granting good exp and doesn't require any entrance fee. Team[edit | edit source] As seen above, you can continue at West Atlantis. Level 120 should take between 1 and 2 hours depending on your friend's exp bonus and attack power. Levels 145-150[edit | edit source] Solo[edit | edit source] At these levels, progression can be slow due to the lack of main quests with high exp rewards. It is recommended to reset Ghera's Katherine Gorge (Quest) everyday. It gives a total of 2 billion exp to everyone in your formation. By partying with a mentor you will receive 4 billion exp and with a Quest EXP 2x License added to the mix, 6 billion exp. At level 145 you will also have access to daily Lucky Coin quests which are quick to do and AFK-able. Doing Olympus tower's floors 1, 5 and if strong enough 10 on a daily basis with a Concentration License will speed the process quite a lot.
