Life is better with a Dachshund! Located in the beautiful garden city of Toowoomba Queensland we give birth to PureBred Premium Mini Smooth Hair Dachshunds. We have beautiful chocolate & tan, black & tan, chocolate and silver dapple and cream dachshunds in our breeding family. Meet the parents Dachshunds intelligent creatures and very independent. They are also known to be extremely loyal to their owners, always sticking to their sides and paying attention to them. Dachshunds also have a radiant player personality that allows them to make a game of almost everything. They like to play! The average lifespan of a Dachshund is 12-16 years! It's a lot of love a year! Our Dachshunds produce puppies high quality, robustness and excellent temperament. We ensure that our offspring are happy, healthy and free of genetic problems. Our Longdogs are in excellent health and are regularly examined by the local vet. Dachshund's weighs about 5kgs as an adult (it has a lot to do with genetics!). Little of our short-haired miniature dachshunds requires the least amount of grooms because they hug their jackets. A regular brush with a soft bristle brush will suffice. Our dogs love a good brush and pampering! Dachshund is prone to weight gain because they love food! It is important to keep them fit for their health, help them live longer and help prevent back problems. An adult Dachshund needs about 30 minutes of exercise a day. What can I say? All round just an amazing experience. From start to end Paula was extremely helpful, kept me completely up to date throughout the whole process, very professional and just down right awesome! She has a lot of love for her cubs and will definitely see this if you are lucky enough for yourself at all. Zelda arrived on time in Sydney, a bit sleepy but very comfortable given her QLD travel. Also amazing is that toilet seems to have been trained so far! A very happy Dachshund owner! I bought one of Lynx's Longdogs puppies. Oh, my God, the puppy is the most precious, the most beautiful, the little one. I love her so much. It's beautiful. He was well socialized and almost toilet trained when I got him. Paula was perfect to deal with. She kept me up to date with photos and baby progress videos and became very professional to deal with. I highly recommend Lynx's Tall Dogs! Paula was amazing the whole time. He kept us up to date and provided us with photos and videos of our puppies as he grew up. Everything was a smooth process and he went above and beyond. Oscar came safely and is the most amazing dog. It has a beautiful nature and is already toilet and chest trained. We will definitely be back if we decide to get a friend for him in the future! Clearly love and care for dogs and this is a big tick.
