THE VE819 HDMI Dongle Wireless Extender is the perfect solution for meeting rooms and home theater systems. It sends an uncompressed Full HD 1080p signal from your HDMI devices, such as laptops, PCs, and SET-ups. Up to four wireless HDMI transmitters can be connected to the receiver, bringing the total number of receiver transmitters to a maximum of 4. VE819 is designed to simply connect and play, no drivers or software required. VE819 can wirelessly extend or mirror your PC to connected HDMI devices, allowing smooth and effortless video streaming and photo sharing. Ve819 has a delay of less than 1m, which means that in meeting room settings, the source video can be synced with the projector almost without delay.
