It is difficult to remove the 4 inch screw in the conventional method, and it is much less likely to use a screw extractor. This will work for about seven dollars and may work. If you think you may have removed many screws in the future, you can buy grab multi-piece packs: 2, 3, and 4 extractors. The four-piece version is called the Grabi-Pro 4-Piece Kit. The true value of Grabbit is its immaiveness. You can find it in a mortar place with Lowe's or Home Depot, Ace Hardware, and countless other bricks. Kudos also came up with a name: grab it, grab it a little. I got it. Another great thing is that you can buy them one at a time instead of being forced to buy incredibly small or large extractors that you may never use.
